2 STAGE SELECTION PROCESS

IMPORTANT NOTICE TO BIDDERS

TWO STAGE SELECTION PROCESS

This is the first stage (Stage one) of a two-stage competition: the first stage will evaluate the qualifications of all bidders; second stage (Stage two) will invite the qualified bidders to provide further qualifications and a financial bid on the project based on the specifications and drawings. Upon award of contract in Stage Two the pre-qualification list will expire and will not be used in any other solicitation. The qualification list will expire within 180 days or upon award of a contract in Stage Two, whichever is earlier, and the prequalification list will not be used in any other solicitation.

Parks Canada reserves the right to re-issue Stage One via a /B solicitation if it is determined there is insufficient competition to proceed with Stage Two. Bidders that have qualified in Stage One /A will not be required to resubmit on the Stage One /B. Bidders that failed to demonstrate compliance on the Stage One /A may resubmit and will be considered in Stage One /B.

Stage Two Bidders will be provided an INVITATION TO TENDER (ITT) for further qualifications and the financial evaluation in relation to the specifications and drawings. Please note that the ITT used in Stage 2 of this process will be a Two-Envelope ITT with a technical evaluation component and a price evaluation component. The attached sample is only being provided for bidders to reference the General Conditions.

LIST OF PRE-QUALIFIED BIDDERS:

A list of pre-qualified bidders from Stage One will not be released. Contract award notice of the successful bidder of Stage Two will be posted on canadabuys.canada.ca.

BIDS RECEIVED BY FAX AND EMAIL WILL BE ACCEPTED AS OFFICIAL.

BIDS RECEIVED IN-PERSON OR BY COURIER WILL NOT BE ACCEPTED.

The only acceptable email address for responses to bid solicitations is soumissionsami-bidsrpc@pc.gc.ca. Bids submitted by email directly to the Contracting Authority or to any email address other than soumissionsami-bidsrpc@pc.gc.ca will not be accepted.

The only acceptable facsimile for responses to bid solicitations is 1-855-983-1808.

The maximum email file size that Parks Canada is capable of receiving is 15 megabytes. The Bidder is responsible for any failure attributable to the transmission or receipt of the emailed bid due to file size.

The Bidder should be cognisant of the size of the email as a whole, and not only the attachments. Please take into consideration that some attachments, when sent, may be resized during the email transfer. If the email size is too large, the Bidder should send the bid in multiple emails properly labeled with the solicitation number, project name, and indicate how many emails are included (ex. 1 of 2).

Emails with links to bid documents will not be accepted. Bid documents must be sent as email attachments.

SPECIAL INSTRUCTIONS TO BIDDERS (SI)

ENQUIRIES DURING THE SOLICITATION PERIOD

1. Enquiries regarding this bid must be submitted in writing to the Contracting Officer named on the Invitation to Tender - Page 1 at e-mail address john.umuerri@pc.gc.ca. Enquiries should be received no later than five (5) business days prior to the date set for solicitation closing to allow sufficient time to provide a response. Enquiries received after that time may result in an answer NOT being provided.
2. To ensure consistency and quality of the information provided to Bidders, PCA will examine the content of the enquiry and will decide whether or not to issue an amendment.
3. All enquiries and other communications related to this bid sent throughout the solicitation period must be directed **ONLY** to the Contracting Authority named in paragraph 1. above. Failure to comply with this requirement may result in the bid being declared non-compliant.

STAGE 1

Appendix 1 - Stage One Qualification Requirements must be submitted **ONLY** to the PCA Bid Receiving Unit by the date, time and place indicated on page 1 of the Invitation to Qualify. The PCA will not assume responsibility for submissions directed to any other location.

Submissions received by fax and email will be accepted as official and must meet the following requirements:

- a. Must satisfy Appendix 1 - Stage One Qualification Requirements and should include the completed front page of the Request for Qualifications.
- b. Must indicate:
 - Solicitation number
 - Name of Bidder

The first page of all amendment(s) that have been duly signed/initialed verifying proof of receipt or written acknowledgement of receipt of amendments should be submitted with the bid but may be submitted afterwards. If any amendment(s) are not acknowledged as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the documentation within the time frame specified will render the bid non-responsive.

COMPLETION OF SUBMISSION

The Bidder shall base the submission on the applicable documents listed in the Special Instructions to Bidders. It is the responsibility of the Bidder to obtain clarification on any terms, conditions or technical requirements contained in this document.

BID SUBMISSION ELIGIBILITY

This solicitation is subject to the Policy on Reciprocal Procurement. This means that only Canadian Contractors and Contractors of an Applicable Trading Partner, as defined in Definitions, are eligible for this solicitation of bids. Bids submitted by Contractors of a Non-Trading Partner will be rejected.

DEFINITIONS

"Applicable Trading Partner" means a country or customs territory other than Canada that is listed, pursuant to the [schedule](#) of the Canadian International Trade Tribunal Procurement Inquiry Regulations, as a party to any of the trade agreements applicable to this solicitation;

"Canadian Contractor" means a contractor that has a place of business in Canada where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours; or, a joint venture where each member of the joint venture has a place of business in Canada where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours.

"Contractor of an Applicable Trading Partner" means a contractor that has a place of business in an Applicable Trading Partner where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours; or, a joint venture where at least one member of the joint venture has a place of business in an Applicable Trading Partner where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours, and all other members of the joint venture either have a place of business in an Applicable Trading Partner where they conduct activities on a permanent basis that is clearly identified by name and accessible during normal business hours or are a Canadian Contractor;

"Contractor of a Non-Trading Partner" means any contractor that is not a Canadian Contractor or a Contractor of an Applicable Trading Partner; or, a joint venture where any member of the joint venture is not a Canadian Contractor or a Contractor of an Applicable Trading Partner;

DEBRIEFINGS

After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within fifteen (15) working days of receipt of the results of the bid solicitation process. The debriefing may be in writing or by telephone.

APPENDIX 1 - STAGE ONE QUALIFICATION REQUIREMENTS

DESCRIPTION:

5P468-26-0011/A Stage 1 - Johnston Canyon Rock Slope Remediation, Banff National Park

Parks Canada Agency requires the services of a qualified contractor to complete rock slope remediation work along the Johnston Canyon Trail in Banff National Park. The work is part of Parks Canada's ongoing rockfall hazard management that is intended to reduce the potential safety hazards along the busy trail which runs through the narrow, vertical walled canyon. The work will be situated in a remote environment with significant access and logistical constraints.

The scope of work includes but is not limited to, rock scaling, trimming, rock bolt and rock dowel installations.

Access to the site is restricted to pedestrian and small ATV means, with limited vehicular access and very limited on-site staging or laydown areas. All construction activities, materials, and equipment must be transported to and from the site using existing trail networks and/or helicopter-supported access, requiring careful planning and coordination to safely and efficiently execute the work within a sensitive national park environment.

Bidder Instructions: The Bidder is requested to respond to the Stage One Evaluation Criteria using the tables below.

BASIS OF SELECTION:

A submission must comply with the mandatory requirements to be declared responsive in Stage One.

MANDATORY REQUIREMENTS:

At Stage One bid closing time, the Bidder must:

- a) comply with the following Mandatory Requirements; and
- b) provide the necessary documentation to substantiate compliance.

All Mandatory requirements should be completed and submitted prior to closing with sufficient detail to demonstrate compliance. Failure to demonstrate compliance with all mandatory requirements via the original submission, may result in the submission being deemed non-responsive. At any time in the evaluation stage should PCA officials identify any minor irregularities or omissions the Contract Authority may inform the proponent of a time frame within which to provide a clarification or missing information. Failure to comply with the request of the Contracting Authority within the time frame provided will render the submission non-responsive.

#	Mandatory Requirements
M1	Rock Slope Remediation in Remote or Back-Country Environments The Bidder must provide two (2) reference projects that have been substantially completed within the last ten (10) years, where the projects were rock slope remediation projects that included rock scaling, rock bolt installation and disposal of material, and where work was performed in a remote or back-country environment with limited or no vehicular access, requiring helicopter support and off-site staging was utilized. The reference projects must demonstrate the Bidder's ability to plan and execute rock slope remediation work under comparable constrained access conditions with helicopter-supported access. Only the two (2) reference projects, in sequence, will receive consideration and any other provided projects will not receive consideration. The projects preferably but need not necessarily have been in the public sector (i.e. work completed for a federal, provincial/territorial or municipal government client). For at least one (1) of the project examples, the Bidder must have been the Prime Contractor and not have been retained to complete the work under sub-contract. For each project, the component of the work completed by the Bidder related to rock scaling, rock anchor installation and disposal of material must have a value of at least \$300,000 (excluding taxes). For each project, the bidder must provide a client reference (name of client, name of client representative and their position, current contact information) for each project. PCA reserves the right to verify information for completeness and accuracy and to verify the information presented only. Note: The Bidder must provide substantiation of above Mandatory Requirement using Project 1 and Project 2 Tables below (use extra pages if necessary).

PROJECT 1	
Project Title:	
Project Location:	
Was the Bidder the Prime Contractor for this project? ☐ Yes or ☐ No	
Client (Owner or General Contractor if sub-contract):	
Project Start Date (YYYY/MM/DD):	Project Substantial Completion Date (YYYY/MM/DD):
Was this project substantially completed in the past 10 years? ☐ Yes or ☐ No	
Was this project a rock slope remediation project that included rock scaling, rock bolt installation and disposal of material performed in a remote or back-country environment with limited or no vehicular access, where helicopter access was required and off-site staging was utilized? ☐ Yes or ☐ No	
Provide a client reference. This can be an Owner's or Owner's Representative's name, email and phone number for authentication/verification of information presented only. Where the work was done under sub-contract, the contact information for the General (Prime) Contractor is acceptable. Name: Email: Phone #:	
Cost of project work related to rock slope remediation projects that included rock scaling, drilling, rock bolt installation and disposal of material \$ _____ (must be at least \$300,000 excluding taxes)	

Briefly describe the project (i.e.: cost, scope, size, distinguishing characteristics, etc.)

- Outline the scope of work, construction schedule, project location, access constraints, and key project challenges, including the strategies used to mitigate risks associated with remote access and logistics.
- Describe the use of helicopter-supported construction or material delivery, including how helicopter access was coordinated and utilized to support construction activities in a constrained or limited-access environment.

PROJECT 2

Project Title:

Project Location:

Was the Bidder the Prime Contractor for this project? ____ Yes or ____ No

Client (Owner or General Contractor if sub-contract):

Project Start Date
(YYYY/MM/DD):

Project Substantial Completion Date
(YYYY/MM/DD):

Was this project substantially completed in the past 10 years? ____ Yes or ____ No

Was this project a rock slope remediation project that included rock scaling, rock bolt installation and disposal of material performed in a remote or back-country environment with limited or no vehicular access, where helicopter access was required and off-site staging was utilized? ____ Yes or ____ No

Provide a client reference. This can be an Owner's or Owner's Representative's name, email and phone number for authentication/verification of information presented only. Where the work was done under sub-contract, the contact information for the General (Prime) Contractor is acceptable.

Name:

Email:
