Important Notice to Offerors:

1. Migration of the Standard Acquisition Clauses and Conditions Manual (SACC Manual)

As part of the Public Services and Procurement Canada transformation agenda, the SACC manual has been archived and migrated to the CanadaBuys website. It can be accessed through the following link to the [Archived – Standard Acquisition Clauses and Conditions Manual](#) landing page.

Follow the instructions on the page to learn how to search in the Archived SACC Manual for referenced clauses within this document.

2. Policy on Reciprocal Procurement

Reciprocal Procurement - All Suppliers Eligible

Solicitation of Offers Submission Eligibility. Barring any other conditions or international sanctions, Canadian Suppliers, Suppliers of an Applicable Trading Partner and Suppliers of a Non-Trading Partner, as defined in the Annex E Solicitation of Offers definitions, are eligible for this solicitation of offers.

PART 1 - GENERAL INFORMATION

NOTE: [CanadaBuys](#) is the new official source for Government of Canada tender and award notices, and for information, procurement policy and guidelines.

All Offerors must adhere to the [Code of Conduct for Procurement](#) throughout the procurement process and the performance of any resulting standing offer/contract. This includes the obligation to disclose any real, apparent, or potential conflicts of interest at the time of submission and throughout the standing offer /contract period. Any business relationships, circumstances, or affiliations among selected Offerors that could create a real or perceived conflict of interest must be disclosed to the Standing Offer authority. The Government of Canada monitor closely its procurement processes for any potential misconduct, including but not limited to collusion, bid-rigging, or misrepresentation. Non-compliance with the Code of Conduct or failure to disclose conflicts of interest may result in the Offeror's disqualification, termination of the Standing Offer /contract or Supply Arrangement, revocation of the supplier's and its employees' security clearances, or other remedial actions deemed appropriate by the Government of Canada.

1.1 Introduction

The Request for Standing Offers (RFSO) is divided into seven parts plus attachments and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Offeror Instructions: provides the instructions applicable to the clauses and conditions of the RFSO;
- Part 3 Offer Preparation Instructions: provides Offerors with instructions on how to prepare their offer to address the evaluation criteria specified;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria which must be addressed in the offer, and the basis of selection;
- Part 5 Certifications and Additional Information: includes the certifications and additional information to be provided;
- Part 6 Security Requirements: includes specific requirements that must be addressed by Offerors; and
- Part 7 7A, Standing Offer, and 7B, Resulting Contract Clauses:
 - 7A, includes the Standing Offer containing the offer from the Offeror and the applicable clauses and conditions;
 - 7B, includes the clauses and conditions which will apply to any contract resulting from a call-up made pursuant to the Standing Offer.

The Annexes include the Statement of Requirement, the Basis of Payment, the Security Requirements Checklist and any other annexes.

1.2 Summary

1.2.1 The Royal Canadian Mounted Police (RCMP) has a requirement to establish one (1) National Individual Standing Offer for the provision of communication devices as detailed in Annex (A) to the Identified Users across Canada, including areas subject to Comprehensive Land Claims Agreements (CLCAs). The RCMP has a requirement for communication devices that function effectively in areas with low cellular coverage, particularly in harsh and mountainous conditions. The devices must go beyond traditional voice communication, providing capabilities such as location tracking, and other essential data services to ensure comprehensive situational awareness and operational effectiveness.

1.2.2 The period of the Standing Offer will be for a period of three (3) years with the option to extend for two (2), one (1) year periods.

1.3 Environmental Packaging

The Offeror should meet the environmentally preferable packaging specifications for this procurement, as indicated in the Statement of Requirement (SOR). The Offeror should ensure that their recyclable packaging is accepted at the local recycling facilities of the delivery location(s) and should verify with the contracting authority whether their reusable packaging can be reused by the end user. The Offeror should be responsible for taking back any packaging that cannot be recycled or reused by the end user at no additional cost to Canada.

1.4 Policy on Reciprocal Procurement

Reciprocal Procurement – All Suppliers Eligible

Solicitation of Offers Submission Eligibility. Barring any other conditions or international sanctions, Canadian Suppliers, Suppliers of an Applicable Trading Partner and Suppliers of a Non-Trading Partner, as defined in the Annex E Solicitation of Offers definitions, are eligible for this solicitation of offers.

1.5 Comprehensive Land Claims Agreements

The Request for Standing Offers (RFSO) is to establish National Master Standing Offers for the delivery of the requirement detailed in the RFSO, to the Identified Users across Canada, including areas subject to Comprehensive Land Claims Agreements (CLCAs).

1.6 Security Requirements

There are security requirements associated with the requirement of the Standing Offer. For additional information, see Part 6 – Security Requirements, and Part 7 - Standing Offer and Resulting Contract Clauses. For more information on personnel and organization security screening or security clauses, Offerors should refer to the [Contract Security Program](#) of Public

Works and Government Services Canada (<http://www.tpsgc-pwgsc.gc.ca/esc-src/introduction-eng.html>) website.

Please note, the above website is specific to PWGSC requirements and processes may differ from RCMP requirements.

1.7 Debriefings

Offerors may request a debriefing on the results of the request for standing offers process. Offerors should make the request to the Standing Offer Authority within 15 working days of receipt of the results of the request for standing offers process. The debriefing may be in writing, by telephone or in person.

1.8 Challenge Process

If you have any concerns relating to the procurement process:

The Office of the Procurement Ombud (OPO):

The Office of the Procurement Ombud (OPO) was established by the Government of Canada to provide an impartial, independent venue for Canadian offerors to raise complaints regarding the award of certain federal contracts under **\$34,700** for goods and **\$139,000** for services. If you have concerns regarding the award of a federal contract below these dollar amounts, you may contact OPO by e-mail at opo.boa@opo-bo.gc.ca, by telephone at 1-866-734-5169, or by web at www.opo-bo.gc.ca.

Canadian International Trade Tribunal (CITT):

Refer to the [Challenge Process](#) page on the CanadaBuys website and note that there are strict deadlines for filing complaints with the Canadian International Trade Tribunal (CITT).
[Submit a Complaint - Overview - Office of the Procurement Ombud](#)

1.9 Anticipated migration to an e-Procurement Solution (EPS)

Canada is currently developing an online EPS for faster and more convenient ordering of goods and services. In support of the anticipated transition to this system and how it may impact any resulting Standing Offer that is issued under this solicitation, refer to 7.15 Transition to an e-Procurement Solution (EPS).

The Government of Canada's [press release](#) provides additional information.

PART 2 - OFFEROR INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

Revision to Departmental Name: As this solicitation is issued by Royal Canadian Mounted Police (RCMP), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to RCMP or its Minister.

Offerors who submit an offer agree to be bound by the instructions, clauses and conditions of the RFSO and accept the clauses and conditions of the Standing Offer and resulting contract(s).

The 2006 (2023-06-08) Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the RFSO.

Subsection 5.4 of 2006, Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, is amended as follows:

Delete: 60 days

Insert: 180 days

2.2 Submission of Offers

- a. Unless specified otherwise in the RFSO, offers must be received at the destination identified by the date, time and place indicated on page 1 of the solicitation.
- b. For offers is transmitted by electronic mail, Canada will not be responsible for late offers received at destination after the closing date and time.
- c. In the case of a dispute regarding the time at which an offer sent by email arrived at the destination, the time at which the offer is received by the Contract Authority will be determined by the date and time stamp on the Simple Mail Transfer Protocol (SMTP) headers showing the time of first arrival on a server used to provide the Government of Canada with email services.

NOTE: The RCMP has not been approved for offer submission by Canada Post Corporation (CPC) Connect service.

Offers transmitted by facsimile to RCMP will not be accepted.

2.3 Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority no later than 5 calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by Offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a

proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that Offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Offerors. Enquiries not submitted in a form that can be distributed to all Offerors may not be answered by Canada.

2.4 Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in British Columbia.

Note to Offerors: Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Offerors.

2.5 Promotion of Direct Deposit Initiative

The following information is not related to the solicitation process:

An initiative within the Government of Canada called the Cheque Standardization Project has been established whereby eventually for all payments, cheque stubs will no longer be printed and, with few exceptions, will be processed via direct deposit. This option is only available when payment is made in Canadian dollars for deposit into a Canadian bank account. In an attempt to be proactive, RCMP Corporate Accounting is promoting the registration of RCMP suppliers for the upcoming change in the payment process.

If you are the successful Offeror on this or any other RCMP requirement, you are encouraged to register with the RCMP for direct deposit. Please contact RCMP Corporate Accounting by email to receive a form entitled *Recipient Electronic Payment Registration Request* along with instructions for completion of the form.

Should you have any questions regarding the Cheque Standardization Project or if you want to register, please contact the following email: corporate_accounting@rcmp-grc.gc.ca

2.6 Volumetric Data

The volumetric data, estimated quantities, has been provided to Offerors to assist them in preparing their offers. The inclusion of this data in this solicitation does not represent a commitment by Canada that Canada's future usage of the service identified in this solicitation will be consistent with this data. It is provided purely for information purposes.

2.7 Equivalent Products

1. Products that are equivalent in form, fit, function and quality to the item(s) specified in the bid solicitation will be considered where the Offeror:
 - a. designates the brand name, model and/or part number of the substitute product;
 - b. states that the substitute product is fully interchangeable with the item specified;
 - c. provides complete specifications and descriptive literature for each substitute product;
 - d. provides compliance statements that include technical specifics showing the substitute product meets all mandatory performance criteria that are specified in the bid solicitation; and
 - e. clearly identifies those areas in the specifications and descriptive literature that support the substitute product's compliance with any mandatory performance criteria.
2. Products offered as equivalent in form, fit, function and quality will not be considered if:
 - a. the bid fails to provide all the information requested to allow the Contracting Authority to fully evaluate the equivalency of each substitute product; or
 - b. the substitute product fails to meet or exceed the mandatory performance criteria specified in the bid solicitation for that item.
3. In conducting its evaluation of the bids, Canada may, but will have no obligation to, request bidders offering a substitute product to demonstrate, at the sole cost of bidders, that the substitute product is equivalent to the item specified in the bid solicitation.

PART 3 - OFFER PREPARATION INSTRUCTIONS

3.1 Offer Preparation Instructions

Canada requests that the Offeror submit its complete **email** Offer in separately saved and attached sections as follows:

Section I: Technical Offer (one soft copy in PDF format)

Section II: Financial Offer (one soft copy in PDF format)

Section III: Certifications (one soft copy in PDF format)

Important Note:

For Offers transmitted by email, Canada will not be responsible for any failure attributable to the transmission or receipt of the Offer including, but not limited to, the following:

- a. receipt of garbled or incomplete Offer;
- b. delay in transmission or receipt of the Offer to email address identified on Page 1 (the date & time on the email received to the email address identified on Page 1 is considered the date & time of receipt of the Offer submission);
- c. availability or condition of the receiving equipment;
- d. incompatibility between the sending and receiving equipment;
- e. failure of the Offeror to properly identify the Offer;
- f. illegibility of the Offer; or
- g. security of Offer data.

An Offer transmitted electronically constitutes the formal Offer of the Offeror and must be submitted in accordance with Section 05 of 2006 (2023-06-08), Standard Instructions – Request for Standing Offers - Goods or Services - Competitive Requirements”

The RCMP has restrictions on incoming e-mail messages. The maximum e-mail message size including all file attachments must not exceed 5MB. Zip files or links to Offer documents will not be accepted. Incoming e-mail messages exceeding the maximum file size and/or containing zip file attachments will be blocked from entering the RCMP e-mail system. An Offer transmitted by e-mail that gets blocked by the RCMP e-mail system will be considered not received. It is the responsibility of the Offeror to ensure receipt.

Prices must appear in the financial offer only. No prices must be indicated in any other section of the Offer.

Canada requests that Offerors follow the format instructions described below in the preparation of their offer.

- a. use a numbering system that corresponds to that of the Request for Standing Offers.

Policy on Green Procurement: In order to assist Canada in meeting the objectives of the [Policy on Green Procurement](#), when feasible Offerors should prepare their offers as follows:

1. Include all environmental certification(s) relevant to your organization (e.g. ISO 14001, Leadership in Energy and Environmental Design (LEED), Carbon Disclosure Project, etc.)
2. Include all third-party environmental certification(s) or Environmental Product Declaration(s) (EPD) specific to your product/service (such as Canadian Standards Association (CSA Group), Underwriters Laboratories (ULSolutions); Forest Stewardship Council (FSC), ENERGYSTAR, etc.)
3. Unless otherwise noted, Offerors are encouraged to submit offers electronically. If hard copies are required, Offerors should:
 - a. use 8.5 x 11-inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
 - b. use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.
4. Canada is committed to achieving [net zero greenhouse gas \(GHG\) emissions by 2050](#) in an effort to position Canada for success in a green economy and to mitigate climate change impacts. As a result, future solicitations may include the following:
 - a. there may be evaluation criteria or other instructions in the solicitation or contract documents related to measuring and disclosing your company's GHG emissions;
 - b. you may be requested or required to join one of the following initiatives to submit an offer, offer or arrangement or if you are awarded the contract:
 - Canada's Net-Zero Challenge;
 - the United Nations Race to Zero;
 - the Science-based Targets Initiative;
 - the Carbon Disclosure Project;
 - the International Organization for Standardization;
 - c. you may be required to provide other evidence of your company's commitment and actions toward meeting net zero targets by 2050.

Section I: Technical Offer

The technical offer consists of the following:

Substantiation of Technical Compliance:

- a. **Mandatory Technical Criteria:** The technical offer must substantiate the compliance with the specific articles of Attachment 1 to Part 4, which is the requested format for providing the substantiation. The substantiation must not simply be a repetition of the requirement(s), but must explain and demonstrate how the Offeror will meet the requirements and carry out the required Work. Simply stating that the Offeror or its proposed solution or resources comply is not sufficient. Where Canada determines that the substantiation is not complete, the Offeror will be considered non-responsive and disqualified. The substantiation may refer to additional documentation submitted with the offer - this information can be referenced in the "Substantiation" column of Attachment 1 to Part 4, where Offerors are requested to indicate where in the offer the reference material can be found, including the title of the document, and the page and paragraph numbers; where the reference is not sufficiently precise, Canada may request that the Offeror direct Canada to the appropriate location in the documentation.

Section II: Financial Offer

- a. Offerors must submit their financial offer in accordance with the Pricing Schedule provided in Attachment 1 to Part 3. The total amount of Applicable Taxes must be shown separately, if applicable. Unless otherwise indicated, Offerors must include a single, firm, all-inclusive rate quoted in Canadian dollars in each cell requiring an entry in the pricing tables.
- b. **Blank Prices:** Offerors are requested to insert "\$0.00" for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Offeror leaves any price blank, Canada will treat the price as "\$0.00" for evaluation purposes and may request that the Offeror confirm that the price is, in fact, \$0.00. No Offeror will be permitted to add or change a price as part of this confirmation. Any Offeror who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.

3.1.1 Exchange Rate Fluctuation

C3011T (2013-11-06), Exchange Rate Fluctuation

Section III: Certifications

Offerors must submit the certifications and additional information required under Part 5.

ATTACHMENT 1 to PART 3 - PRICING SCHEDULE

FOR EVALUATION PURPOSES ONLY

The Offeror must insert their firm, all-inclusive unit or hourly price in the tables below (column B) and complete the extended price calculation (column C). Failure to complete the tables in full will result in the offer being deemed non-responsive and given no further consideration.

The Offeror must insert the make/model of the proposed device in the Item Description column.

The estimated quantity is provided for evaluation purposes only and does not constitute a guarantee or commitment on behalf of Canada.

The total evaluated price: C1 + C2 + C3 + C4 + C5 (applicable taxes excluded)

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- a. Offers will be assessed in accordance with the entire requirement of the solicitation including the technical and financial evaluation criteria. Canada may hire any independent consultant, or use any Government resources, to evaluate any offer. Not all members of the evaluation team will necessarily participate in all aspects of the evaluation.
- b. An evaluation team composed of representatives of Canada will evaluate the offers. Canada may hire any independent consultant, or use any Government resources, to evaluate any offer. Not all members of the evaluation team will necessarily participate in all aspects of the evaluation.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

- a. Canada will review each offer for compliance with the mandatory technical criteria of the solicitation of offers. Any element of the technical criteria identified specifically with the words “must” or “mandatory” is a mandatory requirement.
- b. For the mandatory technical criteria see Attachment 1 to Part 4.

4.1.2 Financial Evaluation

SACC Manual Clause [M0222T](#) (2016-01-28), Evaluation of Price-Canadian/Foreign Offerors

4.2 Basis of Selection-Mandatory Technical Criteria

An offer must comply with the requirements of the Request for Standing Offers, including qualifying pursuant to the SCI process, and meet all mandatory technical evaluation criteria to be declared responsive. The responsive offer with the lowest evaluated price will be recommended for issuance of a standing offer.

ATTACHMENT 1 to PART 4 – TECHNICAL EVALUATION CRITERIA

1. MANDATORY EVALUATION CRITERIA

In their offers, Offerors must demonstrate in writing how they meet the following mandatory criteria. Failure to meet any of the mandatory criteria will render the offer non-compliant and it will be given no further consideration. Links to web pages are not accepted and will be assessed a “NOT MET” rating.

Offerors are required to provide supporting technical literature, including but not limited to, specification sheets, technical brochures, photographs or illustrations to demonstrate compliance to all the identified mandatory requirements listed below. Offerors are requested to provide a cross-reference for each specification to outline where in the supporting technical literature it demonstrates compliance. However, if supporting technical literature is not available to substantiate compliance with a mandatory requirement, the Offeror must provide sufficient information to explain how its bid is technically compliant.

All Offerors must identify the Make, Model of the proposed products that is part of their solution.

Make: _____

Model: _____

Note: Offerors who intend to supply Somewear Labs Node devices in section 5 of the Statement of Requirement are not required to submit documentation for the evaluation criteria. Offerors proposing equivalent products must provide specifications and descriptive literature in accordance with the requirement described in Annex A Statement of Requirement, and in accordance with SACC Manual Clause B3000T (2006-06-16) Equivalent Products.

MANDATORY CRITERIA		SUBSTANTIATION Please Cross Reference to Specific pages in your proposal [Completed by Offeror]	ASSESSMENT MET/ NOT MET [Completed by RCMP Evaluator]
Compatibility			
M1	The Offeror must demonstrate, by providing a device datasheet or technical specification document, that the proposed device is compatible with ATAK 5.0+ and Android OS v12+.		
M2	The Offeror must demonstrate that the proposed devices are compatible with all of the following Android devices supporting		

	Bluetooth and USB-C, including RCMP handsets: Samsung S21, Samsung S22, Samsung S23, Samsung S24, Samsung S25, Galaxy Fold 6, XCover 6 Pro, XCover 7 Pro, Motorola Lex L11		
Equipment Description			
M3	The Offeror must demonstrate, by providing a device datasheet or technical specification document, that the proposed device is an all-in-one package that has no external antennas or external battery required for operation.		
M4	The Offeror must demonstrate, by providing a compliance statement, that the proposed device is commercially available.		
M5	The Offeror must demonstrate, by providing a device datasheet or technical specification document, that the proposed device is a single form factor integrating satellite, GPS and mesh communications.		
M6	The Offeror must demonstrate, by providing a device datasheet or technical specification document, that the proposed device has an ATAK plugin that is commercially available and approved on TAK.GOV and Google Play.		
General Specifications			
M7	The Offeror must demonstrate, by providing a compliance statement, that the device is fully compatible via Bluetooth with handsets operating in any standard Canadian cellular bands.		
M8	The Offeror must demonstrate, by providing a compliance statement, that the proposed devices' operation is not affected by Electromagnetic Interference typical to police environments including but not limited to devices radio transmissions, cellular devices, tasers, body worn		

	cameras, etc.		
M9	The Offeror must provide datasheets/spec sheets including power output and radiation patterns of all antennas.		
M10	The Offeror must demonstrate, by providing a compliance statement, that the proposed device does not cause interference to cellular handsets or other nearby radio devices.		
M11	The Offeror must demonstrate, by providing a compliance statement, that the proposed device has no tones/beeps during normal operation and any visible lights can be disabled via the ATAK plugin.		
M12	The Offeror must demonstrate, by providing a device datasheet or technical specification document, that the proposed device is small/light (≤ 200 g), dimensions are $\leq 140\text{mm} \times 70\text{mm} \times 25\text{mm}$, and the device colour is black.		
M13	The Offeror must demonstrate, by providing a compliance statement, that the proposed device has attachment points (closed loop) to affix to external equipment; no open clips.		
M14	The Offeror must demonstrate, by providing a legible and valid copy of the certifications, that the proposed device has Ingress protection IP68, and MIL-STD-810H shock/vibration.		
M15	The Offeror must demonstrate, by providing XXX, that the proposed device transmits at ≤ 1 W and that the user is able to select Transmitter power outputs in the app and ATAK Plugin.		
M16	The Offeror must demonstrate, by providing a device datasheet or technical specification document, that the proposed device has an operating temperature of -		

	20°C to +60°C, and the device has a storage temperature of -40°C to +60°C.		
M17	The Offeror must demonstrate, by providing a test report, that the proposed devices' battery is rechargeable and supports ≥6-hour battery life with satellite + mesh at 30s tracking intervals.		
M18	The Offeror must demonstrate, by providing test results, the proposed device has a full recharge time of less than or equal to 4 hours from 0% to 100% battery charge.		
M19	The Offeror must demonstrate, by providing device datasheet or technical specification document, that the proposed devices' battery is a rechargeable Li-ion battery with a capacity ≥1900 mAh.		
M20	The Offeror must demonstrate, by providing a valid and legible copy of the certificate, that the proposed device has a valid ISED Radio Compliance certificate.		
M21	The Offeror must demonstrate, providing a copy of the User Manual in English, that the proposed device supports text-based messages, MIL-STD-2525 based markers, and API passthrough (sensor data) via ATAK Plugin.		
Connectivity			
M22	The Offeror must demonstrate, by providing device datasheet or technical specification document, that the proposed device has built-in antennas for GPS, LoRa, and Satellite.		
M23	The Offeror must demonstrate, by providing device datasheet or technical specification document, that the proposed device is able to have the option of connecting external antenna options via SMA connectors for GPS, LoRa, and Satellite.		
M24	The Offeror must demonstrate, by providing device datasheet or technical specification document, that the proposed device has a		

	USB-C charging port.		
M25	The Offeror must demonstrate, by providing a compliance statement, that the proposed device can charge while operational.		
M26	The Offeror must demonstrate, by providing device datasheet, technical specification document or user manual, the proposed device can connect to Android cellular handsets via Bluetooth ≥ 5.0 and tethered USB-C.		
M27	The Offeror must demonstrate, providing a copy of the User Manual in English, that the proposed device has a visible indication of successful pairing.		
M28	The Offeror must demonstrate, by providing a compliance statement, that the proposed device is prevented from pairing multiple devices to a single handset simultaneously.		
M29	The Offeror must demonstrate, providing a copy of the User Manual in English and a compliance statement, that the proposed device can act in standalone operation without a handset and have its own assigned name/resource while still participating in the mesh network.		
M30	The Offeror must demonstrate, providing a copy of the User Manual in English, that the device has a unique observable Bluetooth identity per device to simplify pairing process (e.g. Device-xxxx).		
M31	The Offeror must demonstrate, by providing a compliance statement, that the proposed device has a self-healing mesh topology.		
M32	The Offeror must demonstrate, by providing device datasheet, technical specification document or a copy of the test report, that the proposed device has a Line-of-Sight range ≥ 2 km between devices over flat terrain; and user-configurable power output between +16 dBm to +30 dBm per band.		

M33	The Offeror must demonstrate, by providing device datasheet, technical specification document or a copy of the test report, that the device supports ≥ 4 hops between any two devices (6 devices including endpoints).		
M34	The Offeror must demonstrate, by providing device datasheet, technical specification document, that mesh protocols work in the frequency ranges of 863-870 MHz and 902-928 MHz, up to 1W per ISED and follow RSS-247.		
M35	The Offeror must demonstrate, by providing device datasheet, technical specification document, that the proposed device connects to Iridium services in the 1610-1626.5 MHz range and supports SBD messaging up to 340 bytes.		
Encryption			
M36	The Offeror must demonstrate, providing a copy of the User Manual in English, that the user is able to generate random encryption keys locally and via management console on request for each channel/group the device can support.		
M37	The Offeror must demonstrate, by providing device datasheet, technical specification document, that the proposed devices' encryption and key storage conform to FIPS 140-2 Level 1.		
M38	The Offeror must demonstrate, providing a copy of the User Manual in English or a compliance statement, that the proposed device can share encryption keys with no backhaul to the central servers.		
M39	The Offeror must demonstrate, providing a copy of the User Manual in English, that the ATAK interface for the proposed device shows secure representation of current		

	encryption key.		
M40	The Offeror must demonstrate, by providing device datasheet, technical specification document or a compliance statement, that the proposed devices' data, while in transit or at rest, is encrypted using AES-256.		
M41	The Offeror must demonstrate, by providing a compliance statement, that the proposed device is able to maintain encryption key indefinitely through power loss.		
M42	The Offeror must demonstrate, by providing a compliance statement, that the proposed device is tamper-resistant, and the proposed device will zeroize its keys upon evidence of tampering.		
M43	The Offeror must demonstrate, providing a copy of the User Manual in English, that the proposed device can store and share keys locally via QR code scanning, passphrase, or equivalent for an ad-hoc created, encrypted, channel/group.		
M44	The Offeror must demonstrate, providing a copy of the User Manual in English, that the proposed devices' keys can be updated/rotated via ATAK and admin console.		
M45	The Offeror must demonstrate, providing a copy of the User Manual in English, that the proposed device supports user-selectable automatic key rotation per channel.		
On-Premises			
M46	The Offeror must demonstrate, by providing a compliance statement, that the proposed device allows installation of an on-premise relaying/server integrating Iridium and TAK federation.		
M47	The Offeror must demonstrate, by providing a compliance statement, that an on-premise software has all features of the		

	cloud/online counterpart.		
M48	The Offeror must demonstrate, by providing a compliance statement, that the on-premise software that negates need for any interaction/registration with the Offeror's cloud, third party or self-hosted systems other than the Iridium network for connectivity.		
TAK integration			
M49	The Offeror must provide an extended warranty option to cover the 5-year useful lifespan. The Offeror can demonstrate this by providing a compliance statement.		
M50	The Offeror must allow licenses/activation keys to be transferrable to replacement equipment of same model/equivalent at no cost during warranty/extended warranty. The Offeror can demonstrate this by providing a compliance statement.		

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Offerors must provide the required certifications and additional information to be issued a standing offer.

The certifications provided by Offerors to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare an offer non-responsive, will have the right to set-aside a standing offer, or will declare an Offeror in default if any certification made by the Offeror is found to be untrue whether made knowingly or unknowingly during the offer evaluation period, during the Standing Offer period, or during the contract period.

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Standing Offer Authority will render the offer non-responsive, result in the setting aside of the Standing Offer or constitute a default under the Contract.

5.1 Certifications Precedent to Issuance of a Standing Offer and Additional Information

The certifications and additional information listed below should be submitted with the offer, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Standing Offer Authority will inform the Offeror of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the offer non-responsive.

5.1.1 Ineligibility and Suspension Policy

- a. **Mandatory Compliance.** The [*Ineligibility and Suspension Policy*](#) (the "Policy") in effect on the date the solicitation of offers is issued, and all related Directives in effect on that date, are incorporated by reference into, and form a binding part of the solicitation of offers. The Offeror must comply with the Policy and Directives, which can be found at the [Office of Supplier Integrity and Compliance](#) website.
- b. **Policy Summary.** The Policy sets out the circumstances under which Canada may determine that the Supplier is ineligible to enter, or is suspended from entering into a Contract with Canada. The list of ineligible and suspended Suppliers is maintained on the [Office of Supplier Integrity and Compliance](#) website.
- c. **Offeror Responsibilities.** The Offeror must provide the following:
 - i. a [List of names for integrity verification](#) that includes all information required by the Policy (section 13 – Disclosure); and
 - ii. if the Offeror is unable to certify all of the statements in subsection d, a completed [Integrity declaration form](#) providing all requested information and details of any material event that may affect the status of itself, its affiliates or its proposed first-tier subcontractors under the Policy.
- d. **Offeror Certifications.** Subject to subsection e, by submitting an offer in response to this solicitation of offers, the Offeror certifies that:
 - i. it has read and understands the [*Ineligibility and Suspension Policy*](#);
 - ii. it understands that certain circumstances, as described in the Policy, will or may result in a determination of ineligibility or suspension under the Policy;

- iii. it is aware that Canada may request additional information, certifications, and validations from the Offeror or a third party for the purpose of making a determination of ineligibility or suspension;
 - iv. none of the circumstances described in [Appendix 2](#) of the Policy that will or may result in a determination of ineligibility or suspension, apply to itself, its affiliates or its proposed first tier subcontractors; and
 - v. it is not aware of a determination of ineligibility or suspension issued by Canada that applies to it.
- e. **Integrity Declaration Form.** Where an Offeror is unable to provide any of the certifications required by subsection d, at the time of its offer it must submit a completed [Integrity declaration form](#).
- f. **Compliance with Certifications.** Canada will declare non-compliant any offer in respect of which the information requested is incomplete or inaccurate, or in respect of which the information contained in a certification or declaration is found by Canada to be false or misleading in any respect. If Canada establishes after award of the Contract that the Offeror provided a false or misleading certification or declaration, Canada may terminate the Contract for default. Pursuant to the Policy, Canada may also determine the Offeror to be ineligible for award of a Contract for providing a false or misleading certification or declaration.
- g. **SCSI Vendor Submission Form**

Offerors should submit with their bids, by the closing date, the following :

- (A) **IT Product List:** Offerors must identify the Products over which Canada's Data would be transmitted and/or on which Canada's Data would be stored, or that would be used and/or installed by the Offeror or any of its subcontractors to perform any part of the Work, together with the following information regarding each Product:
- (1) **Product Type:** identify the generally recognized description used by industry such as hardware, software, etc.; components of an assembled Product, such as module or card assembly, must be provided for all layer 3 internetworking devices;
 - (2) **IT Component:** identify the generally recognized description used by industry such as firewall router, switch, server, security appliance, etc.;
 - (3) **Product Model Name or Number:** identify the advertised name or number of the Product assigned to it by the Product Manufacturer;
 - (4) **Description and Purpose of the Product:** identify the advertised description or purpose by the Product Manufacturer of the Product and the intended usage or role in the Work described for the Project;
 - (5) **Source:** identify the Product Manufacturer and/or Software Publisher of embedded components;

Submitting the information set out above is mandatory. Canada requests that bidders provide the IT Product List information by using the SCSI Submission Form, but the form in which the information is submitted is not itself mandatory. Canada also requests that, on each page, Offerors indicate their legal name and insert a page number as well as the total number of pages. Canada further requests that Offerors insert a separate row in the SCSI Submission Form for each Product. Finally, Canada requests that Offerors not repeat multiple iterations of the same Product (e.g., if the serial

number and/or the color is the only difference between two Products, they will be treated as the same Product for the purposes of SCSI).

B) List of Subcontractors: The Offeror must provide a list of any subcontractors that could be used to perform any part of the Work (including subcontractors affiliated or otherwise related to the Bidder) pursuant to any resulting contract. The list must include at a minimum:

- (1) the name of the subcontractor;
- (2) the address of the subcontractor's headquarters;
- (3) the portion of the Work that would be performed by the subcontractor; and
- (4) the location(s) where the subcontractor would perform the Work.

This list must identify all third parties who may perform any part of the Work, whether they would be subcontractors to the Offeror, or subcontractors to subcontractors of the Bidder down the chain. This means that every subcontractor that could have access to Canada's Data or would be responsible either for transporting it or for storing it must be identified. Subcontractors would also include, for example, technicians who might be deployed to maintain the Offeror's solution. For the purposes of this requirement, a third party who is merely a supplier of goods to the Offeror, but who does not perform any portion of the Work, is not considered to be a subcontractor. If the Offeror does not plan to use any subcontractors to perform any part of the Work, Canada requests that the Offeror indicate this in its bid

5.1.2 Federal Contractors Program for Employment Equity - Standing Offer Certification

By submitting an offer, the Offeror certifies that the Offeror, and any of the Offeror's members if the Offeror is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list available at the bottom of the page of the [Employment and Social Development Canada \(ESDC\) – Labour's](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#) website (<https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#>).

Canada will have the right to declare an offer non-responsive, or to set-aside a Standing Offer, if the Offeror, or any member of the Offeror if the Offeror is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](#)" list at the time of issuing of a Standing Offer or during the period of the Standing Offer.

5.1.3 Additional Certifications Precedent to Issuance of a Standing Offer

5.1.3.1 Independent Offer Determination

The attached Certificate of Independent Offer Determination (attached Attachment 1 to Part 5) has been developed by the federal Competition Bureau for use by the Standing Offer Authority when calling for offers, tenders or quotations. The intention of this documentation is to deter bid-rigging by requiring Offerors to disclose, to the Standing Offer Authority, all material facts about any

communications and arrangements which the Offeror has entered into with competitors regarding the call for tenders.

ATTACHMENT 1 to PART 5 - CERTIFICATE OF INDEPENDENT OFFER DETERMINATION

I, the undersigned, in submitting the accompanying offer (hereinafter "offer") to:

(Corporate Name of Recipient of this Submission)

for: _____
(Name and Number of Offer and Project)

in response to the call or request (hereinafter "call") for offers made by:

(Name of Tendering Authority)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____ that:
(Corporate Name of Offeror [hereinafter "Offeror"])

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying offer will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the Offeror to sign this Certificate, and to submit the accompanying offer, on behalf of the Offeror;
4. each person whose signature appears on the accompanying offer has been authorized by the Offeror to determine the terms of, and to sign, the offer, on behalf of the Offeror;
5. for the purposes of this Certificate and the accompanying offer, I understand that the word "competitor" shall include any individual or organization, other than the Offeror, whether or not affiliated with the Offeror, who:
 - a. has been requested to submit an offer in response to this call for offers;
 - b. could potentially submit an offer in response to this call for offers, based on their qualifications, abilities or experience;
6. the Offeror discloses that (check one of the following, as applicable):
 - (a) the Offeror has arrived at the accompanying offer independently from, and without consultation, communication, agreement or arrangement with, any competitor; ☐

(b) the Offeror has entered into consultations, communications, agreements or arrangements with one or more competitors regarding this call for offers, and the Offeror discloses, in the attached document(s), complete details thereof, including the names of the competitors and the nature of, and reasons for, such consultations, communications, agreements or arrangements; ☐

7. in particular, without limiting the generality of paragraphs (6)(a) or (6)(b) above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
- (a) prices;
 - (b) methods, factors or formulas used to calculate prices;
 - (c) the intention or decision to submit, or not to submit, an offer; or
 - (d) the submission of an offer which does not meet the specifications of the call for offers;

except as specifically disclosed pursuant to paragraph (6)(b) above;

8. in addition, there has been no consultation, communication, agreement or arrangement with any competitor regarding the quality, quantity, specifications or delivery particulars of the products or services to which this call for offers relates, except as specifically authorized by the Tendering Authority or as specifically disclosed pursuant to paragraph (6)(b) above;
9. the terms of the accompanying offer have not been, and will not be, knowingly disclosed by the Offeror, directly or indirectly, to any competitor, prior to the date and time of the official offer opening, or of the awarding of the Standing Offer, whichever comes first, unless otherwise required by law or as specifically disclosed pursuant to paragraph (6)(b) above.

(Printed Name and Signature of Authorized Agent of Offeror)

(Position Title)

(Date)

PART 6 - SECURITY REQUIREMENTS

6.1 Security Requirements

1. Before issuance of a standing offer, the following conditions must be met:

- a. **Condition of Standing Offer Award:** In order to be awarded a standing offer, the Offeror must complete the Supply Chain Security Information (SCSI) assessment process and not be disqualified.
- b. **Definitions:** The following words and expressions used with respect to SCSI assessment have the following meanings:
 - i) **“Product”** means any hardware that operates at the data link layer of the **Open Systems Interconnection model** (OSI Model) Layer 2 and above; any software; and any Workplace Technology Device;
 - ii) **“Workplace Technology Device”** means any desktop, mobile workstation (such as a laptop or tablet), smart phone, or phone, as well as any peripheral item or accessory such as a monitor, keyboard, computer mouse, audio device or external or internal storage device such as a USB flash drive, memory card, external hard drive or writable CDs and DVDs or other media;
 - iii) **“Product Manufacturer”** means the entity that assembles the component parts to manufacture the final Product;
 - iv) **“Software Publisher”** means the owner of the copyright of the software, who has the right to license (and authorize others to license/sub-license) its software products;
 - v) **“Canada’s Data”** means any data originating from the Work, any data received in contribution to the Work or any data that is generated as a result of the delivery of security, configuration, operations, administration and management services, together with any data that would be transported or stored by the contractor or any subcontractor as a result of performing the Work under any resulting contract; and
 - vi) **“Work”** means all the activities, services, goods, equipment, matters and things required to be done, delivered or performed by the contractor under any resulting contract.

PART 7 - STANDING OFFER AND RESULTING CONTRACT CLAUSES

A. STANDING OFFER

7.1 Offer

7.1.1 The Offeror offers to fulfill the requirement in accordance with the Statement of Requirement at Annex A.

7.2 Security Requirements

7.2.1 The following security requirements (SRCL and related clauses) apply and form part of the Standing Offer.

a) There are no personnel security requirements as per the SRCL in Annex C.

b) The Offeror's equipment, firmware, software that are procured by the RCMP must pass a Supply Chain Integrity (SCI) check.

7.3 Standard Clauses and Conditions

Important Notice to Offeror:

Migration of the Standard Acquisition Clauses and Conditions Manual (SACC Manual)

As part of the Public Services and Procurement Canada transformation agenda, the SACC manual has been archived and migrated to the CanadaBuys website. It can be accessed through the following link to the [Archived – Standard Acquisition Clauses and Conditions Manual](#) landing page.

Follow the instructions on the page to learn how to search in the Archived SACC Manual for referenced clauses within this document.

Revision to Departmental Name: As this Standing Offer is issued by Royal Canadian Mounted Police (RCMP), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this Standing Offer, including any individual SACC clauses incorporated by reference, will be interpreted as reference to RCMP or its Minister.

7.3.1 General Conditions

2005 (2022-12-01) General Conditions - Standing Offers - Goods or Services, apply to and form part of the Standing Offer.

7.3.2 Standing Offers Reporting

The Offeror must compile and maintain records on its provision of goods and services to Canada under contracts resulting from the Standing Offer. This data must include all

purchases done by Canada, including those acquired and paid for by Canada acquisition cards.

The Offeror must provide this data in accordance with the reporting requirements detailed in annex D. If some data is not available, the reason must be indicated in the report. If no goods or services is provided during a given period, the Offeror must provide a "nil" report.

The data must be submitted on a quarterly basis to the Standing Offer Authority. The quarterly reporting periods are defined as follows:

- first quarter: April 1 to June 30
- second quarter: July 1 to September 30
- third quarter: October 1 to December 31
- fourth quarter: January 1 to March 31

The data must be submitted to the Standing Offer Authority no later than 10 calendar days after the end of the reporting period.

7.4 Term of Standing Offer

7.4.1 Period of the Standing Offer

The period for making call-ups against the Standing Offer is from Standing Offer award date to _____ (3 years later).

7.4.2 Extension of Standing Offer

If the Standing Offer is authorized for use beyond the initial period, the Offeror offers to extend its offer for two (2) additional one (1) year periods under the same conditions and at the rates or prices specified in the Standing Offer, or at the rates or prices calculated in accordance with the formula specified in the Standing Offer.

The Offeror will be advised of the decision to authorize the use of the Standing Offer for an extended period by the Standing Offer Authority thirty (30) calendar days before the expiry date of the Standing Offer. A revision to the Standing Offer will be issued by the Standing Offer Authority.

7.4.3 Comprehensive Land Claims Agreements (CLCAs)

The Standing Offer (SO) is for the delivery of the requirement detailed in the SO to the Identified Users across Canada, including areas subject to Comprehensive Land Claims Agreements (CLCAs).

7.4.4 Delivery Points

Delivery of the requirement will be made to delivery point(s) specified at Annex A of the Standing Offer.

7.5. Authorities

7.5.1 Standing Offer Authority

The Standing Offer Authority is:

Name: Gursharn Dhadwal
Title: Senior Procurement Officer
Royal Canadian Mounted Police
Address: 14200 Green Timbers Way, Surrey, BC, V3T 6P3

Telephone: 778-290-2774
E-mail address: Gursharn.dhadwal@rcmp-grc.gc.ca

The Standing Offer Authority is responsible for the establishment and administration of the Standing Offer, (including any extensions, set asides or cancellations). Revisions or amendments to the Standing Offer shall only be authorized in writing by the Standing Offer Authority. The Offeror must not perform work in excess of or outside the scope of the Standing Offer based on verbal or written requests or instructions from anyone other than the Standing Offer Authority and any work so conducted shall be at the Offeror's sole risk and expense and shall not be charged to any Authorized User unless otherwise agreed to in writing by the Standing Offer Authority.

7.5.2 Technical Authority *(to be inserted at issuance of Standing Offer)*

The Technical Authority for the Standing Offer is:

Name: _____
Title: _____
Organization: _____
Address: _____

Telephone: ____ - ____ - ____
Facsimile: ____ - ____ - ____
E-mail address: _____

The Technical Authority is the representative of the department or agency for whom the Work will be carried out pursuant to a call-up under the Standing Offer and is responsible for all the technical content of the Work under the resulting Contract.

7.5.3 Offeror's Representative *(to be inserted at issuance of Standing Offer)*

Name: _____
Title: _____
Organization: _____
Address: _____

Telephone: ____ - ____ - ____

Facsimile: _____ - _____ - _____
E-mail address: _____

7.6 Identified Users

The Identified User authorized to make call-ups against the Standing Offer is:
The RCMP Radio Technology Unit and RCMP Procurement Officers across Canada.

7.7 Call-up Procedures

The identified User will make call-ups against the Standing Offer as follows:

- a) Authorized call-ups against this Standing Offer must be made using the duly completed forms identified in section, 7.8 Call-up Instrument, by methods such as facsimile, electronic mail or any other method deemed acceptable by both the identified User and the Offeror.
- b) No costs incurred before the receipt of a signed call-up or equivalent document can be charged to this Standing Offer
- c) Only the goods identified in Annex A of the Standing Offer are authorized for call-up. No substitutions are permitted unless otherwise authorized in writing by the Standing Offer Authority
- d) If by error or omission, the Identified User fails to apply the correct price as listed in Annex B or applies it improperly, it will be the responsibility of the Offeror to notify the Identified User of the error prior to deliver
- e) Any modifications to the original call-up must be supported by the issuance of an amended call-up form.

7.8 Call-up Instrument

The Work will be authorized or confirmed by the Identified User(s) using the duly completed forms or their equivalents as identified in paragraphs 2 and 3 below.

1. Call-ups must be made by Identified Users' authorized representatives under the Standing Offer and must be for goods or services or combination of goods and services included in the Standing Offer at the prices and in accordance with the terms and conditions specified in the Standing Offer.
2. Any of the following forms may be used which are available through [PWGSC Forms Catalogue](#) website:
 - PWGSC-TPSGC 942 Call-up Against a Standing Offer
 - PWGSC-TPGSC 942-2 Call-up Against a Standing Offer - Multiple Delivery
 - PWGSC-TPSGC 944 Call-up Against Multiple Standing Offers (English version)
 - PWGSC-TPSGC 945 Commande subséquente à plusieurs offres à commandes (French version)

OR :

3. An equivalent form or electronic call-up document which contains at a minimum the following information:

- standing offer number;
- statement that incorporates the terms and conditions of the Standing Offer, and acceptance of those terms;
- description and unit price for each line item;
- total value of the call-up;
- point of delivery;
- confirmation that funds are available under section 32 of the Financial Administration Act;
- confirmation that the user is an Identified User under the Standing Offer with authority to enter into a contract.

7.9 Limitation of Call-ups

7.9.1 Individual call-ups against the Standing Offer up to \$10,000 (Applicable Taxes included) must be issued by the Responsibility Center Managers or their delegates in Radio Technology Units across Canada, or by the Standing Offer Authority or approved delegate which includes RCMP procurement officers across Canada.

7.9.2 Individual call-ups against the Standing Offer up to \$100,000.00 (Applicable Taxes included) must be issued by the Standing Offer Authority or approved delegate which includes RCMP Procurement Officers across Canada.

7.9.3 Individual call-ups against the Standing Offer greater than \$100,000.00 (Applicable Taxes included) must be issued by the Standing Offer Authority.

7.9.4 Individual call-ups against the Standing Offer must not exceed \$400,000.00 (Applicable Taxes included)

7.10 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- a. the call up against the Standing Offer, including any annexes;
- b. the articles of the Standing Offer;
- c. the general conditions 2005 (2022-12-01), General Conditions - Standing Offers - Goods or Services
- d. the supplemental general conditions 4001 (2010-08-16) Hardware Purchase, Lease and Maintenance;
- e. the supplemental general conditions 4003 (2010-08-16) Licensed Software

- f. the supplemental general conditions [4004](#) (2010-08-16), Maintenance and Support Services for Licensed Software;
- g. The supplemental general conditions [4002](#) (2010-08-16) Software Development or Modification Services
- h. the general conditions [2010A](#) (2022-12-01), General Conditions - Goods (Medium Complexity);
- i. Annex A, Statement of Requirement;
- j. Annex B, Basis of Payment;
- k. Annex C, Security Requirements Check List
- l. Attachment 1 to Part 5, Certificate of Independent Offer Determination
- m. the Offeror's offer dated _____ "as clarified on _____" or "as amended on _____"

7.11 Certifications and Additional Information

7.11.1 Compliance

Unless specified otherwise, the continuous compliance with the certifications provided by the Offeror with its offer or precedent to issuance of the Standing Offer (SO), and the ongoing cooperation in providing additional information are conditions of issuance of the SO and failure to comply will constitute the Offeror in default. Certifications are subject to verification by Canada during the entire period of the SO and of any resulting contract that would continue beyond the period of the SO.

7.12 Anti-forced Labour Requirement – Standing Offer

1. **Offeror's Statement.** The Offeror states that the goods or services or both offered and described in the Standing Offer are not mined, manufactured, or produced wholly or in part by forced labour. In performing the Call-up, the Offeror must not, directly or indirectly, provide services through the use of forced labour. Regardless of who acts as an importer, the Offeror must not, directly or indirectly, deliver offered goods to Canada or import offered goods into Canada the importation of which is prohibited under ss. 136(1) of the Customs Tariff and tariff item No. 9897.00.00 of the [Customs Tariff](#) – Schedule (as amended from time to time), because they are mined, manufactured, or produced wholly or in part by forced labour.
2. **Effect of Tariff Classification Determination or Investigation.** If a tariff classification determination is made under the Customs Act that the importation of the goods or any part of the goods are prohibited, the Offeror must immediately so notify the Standing Offer Authority. If the goods or any part of the goods are classified under tariff item no. 9897.00.00 of the [Customs Tariff](#) – Schedule as mined, manufactured, or produced wholly or in part by forced labour, Canada may set aside the Standing Offer in accordance with the sub-clause entitled "Set Aside on Default". If the Offeror is aware that the goods, or any part of the goods, are being or have been investigated regarding whether they are prohibited from entry under to tariff item No. 9897.00.00, the Offeror must immediately notify the Standing Offer Authority of that investigation.

3. **Canada's Reasonable Grounds for Termination.** If Canada has reasonable grounds to believe the goods or services or both were or are mined, manufactured, or produced in whole or in part by forced labour or were or are linked to human trafficking, Canada may set aside the Standing Offer. Reasonable grounds for making such a determination may include
 - I. Findings or Withhold Release Orders issued by the United States Customs and Border Protection, under the US Trade Facilitation and Trade Enforcement Act (TFTEA) of 2015, or
 - II. Credible evidence from a reliable source.
4. **Offeror's Conviction in Canada of Specified Offences.** Canada may set aside the Standing Offer if the Offeror has, in the past three years, been convicted of any of the following offences under the Criminal Code or the Immigration and Refugee Protection Act:
 - I. **Criminal Code.**
 - (a) section 279.01 (Trafficking in persons),
 - (b) section 279.011 (Trafficking of a person under the age of eighteen years),
 - (c) subsection 279.02(1) (Material benefit - trafficking),
 - (d) subsection 279.02(2) (Material benefit - trafficking of person under 18 years),
 - (e) subsection 279.03(1) (Withholding or destroying documents - trafficking),
 - (f) subsection 279.03(2) (Withholding or destroying documents - trafficking of person under 18 years), or
 - II. **Immigration and Refugee Protection Act.**
 - (a) section 118 (Trafficking in persons).
5. **Offeror's Conviction Abroad of Similar Offences.** If the Offeror has, in the past three years, been convicted of an offence in a jurisdiction other than Canada that, in Canada's opinion, is similar to any of the offences identified in the immediately preceding clause entitled "Offeror's Conviction in Canada of Specified Offences", Canada may immediately set aside the Standing Offer.
6. **Determination of Similarity of Offences.** For the purposes of determining whether a foreign offence is similar to a listed offence, Canada will take into account the following factors:
 - I. in the case of a conviction, whether the court acted within its jurisdiction,
 - II. whether the Offeror was afforded the right to appear during the court's proceedings or to submit to the court's jurisdiction,
 - III. whether the court's decision was obtained by fraud, or
 - IV. whether the Offeror was entitled to present to the court every defence that the Offeror would have been entitled to present if the proceeding had been tried in Canada.
7. **Representations from the Offeror.** If Canada intends to set aside the Standing Offer under this section, Canada will so inform the Offeror and give the Offeror an opportunity to make written representations before making a final decision. Unless Canada establishes a different

deadline, the Offeror must submit such written representations within 30 calendar days from receiving Canada's notice of concern.

7.13 Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in _____.

7.14 Transition to an e-Procurement Solution (EPS)

During the period of the Standing Offer, Canada may transition to an EPS for more efficient processing and management of individual call-ups for any or all of the SO's applicable goods and services. Canada reserves the right, at its sole discretion, to make the use of the new e-procurement solution mandatory.

Canada agrees to provide the Offeror with at least a three-month notice to allow for any measures necessary for the integration of the Offer into the EPS. The notice will include a detailed information package indicating the requirements, as well as any applicable guidance and support.

If the Offeror chooses not to offer their goods or services through the e-procurement solution, the Standing Offer may be set aside by Canada.

B. RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from a call-up against the Standing Offer.

7.1 Statement of Requirement

The Contractor must provide the items detailed in the call-up against the Standing Offer.

7.2 Standard Clauses and Conditions

Important Notice to Contractor:

Migration of the Standard Acquisition Clauses and Conditions Manual (SACC Manual)

As part of the Public Services and Procurement Canada transformation agenda, the SACC manual has been archived and migrated to the CanadaBuys website. It can be accessed through the following link to the [Archived – Standard Acquisition Clauses and Conditions Manual](#) landing page.

Follow the instructions on the page to learn how to search in the Archived SACC Manual for referenced clauses within this document.

7.2.1 General Conditions

2010A (2022-12-01), General Conditions - Goods (Medium Complexity) apply to and form part of the Contract.

Section 09 entitled Warranty of General Conditions 2010A is amended as follows: At subsection 1, delete the following: "The warranty period will be twelve (12) months" and replace with the following: "The warranty period will be twelve (24) months"

7.2.2 Supplemental General Conditions

- a. 4001 (2010-08-16), Supplemental General Conditions - Hardware Purchase, Lease and Maintenance apply to and form part of the Contract;
- b. 4003 (2010-08-16), Supplemental General Conditions - Licensed Software apply to and form part of the Contract.
- c. 4004 (2010-08-16), Supplemental General Conditions - Maintenance and Support Services for Licensed Software apply to and form part of the Contract;
- d. 4002 (2010-08-16), Supplemental General Conditions-Software Development or Modification Services apply to and form part of the Contract.

7.3 Term of Contract

7.3.1 Period of the Contract

The period of the Contract is from date of contract to _____ inclusive. *(to be filled in upon issuance of call-up)*

7.3.2 Delivery Date

Delivery must be made within thirty (30) calendar days from receipt of a call-up against the Standing Offer.

7.3.3 Shipping Instructions – Delivered Duty Paid

Goods must be consigned to the destination specified in the Contract and delivered:

Delivered Duty Paid (DDP) _____, Incoterms 2020 for shipments from a commercial contractor. (location to be identified in call-up).

7.3.4 Inspection and Acceptance

The Technical Authority is the Inspection Authority. All reports, deliverable items, documents, goods and all services rendered under the Contract are subject to inspection by the Inspection Authority or representative. Should any report, document, good or service not be in accordance with the requirements of the Statement of Work and to the satisfaction of the Inspection Authority, as submitted, the Inspection Authority will have the right to reject it or require its correction at the sole expense of the Contractor before recommending payment.

7.3.5 Delivery and Unloading

- a. Delivery trucks must be equipped with an unloading device which will permit unloading at sites with no hydraulic, stationary or other type of unloading facility.
- b. When making deliveries, sufficient personnel must be provided to permit unloading of any type of vehicle without the assistance of federal government personnel.
- c. At some sites, the delivery truck must be unloaded while parked at the curb. When material is placed on the sidewalk, it must be placed in proximity to the designated entrance so as to be readily accessible to transport by mechanical handling equipment utilized by site personnel.

7.4 Payment

7.4.1 Basis of Payment– Firm Unit Prices

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid firm unit prices as specified in Annex B. Customs duties are included and Applicable Taxes are extra.

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work, unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

7.4.2 Competitive Award

The Contractor acknowledges that the Contract has been awarded as a result of a competitive process. No additional charges will be allowed to compensate for errors, oversights, misconceptions or underestimates made by the Contractor when submitting an offer for the Contract

7.4.3 Method of Payment - Single Payment

Canada will pay the Contractor upon completion and delivery of the Work in accordance with the payment provisions of the Contract if:

- a) an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b) all such documents have been verified by Canada;
- c) the Work delivered has been accepted by Canada.

7.4.4 SACC Manual Clauses

C2000C (2007-11-30) – Taxes – Foreign-based Contractor

7.5 Invoicing Instructions

- i. The Contractor must submit invoices in accordance with the information required in the General Conditions.
- ii. The Contractor's invoice must include a separate line item for each subparagraph in the Basis of Payment provision.
- iii. By submitting invoices, the Contractor is certifying that the goods and services have been delivered and that all charges are in accordance with the Basis of Payment provision of the Contract, including any charges for work performed by subcontractors.
- iv. The Contractor must provide an electronic copy of each invoice to the Technical Authority and to the Contracting Authority

7.5.1 Invoice Distribution. The Contractor must forward:

- i. the invoice to the email address shown on page 1 of the Contract for certification and payment, and
- ii. one copy to the Contracting Authority.

7.6 Insurance – No Specific Requirement

The Contractor is responsible for deciding if insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any insurance acquired or maintained by the Contractor is at its own expense and for its own benefit and protection. It does not release the Contractor from or reduce its liability under the Contract.

7.7 Hardware Purchase, Lease and Maintenance

With respect to the provisions of Supplemental General Conditions 4001 (Hardware, Purchase, Lease and Maintenance):

Part III of 4001 applies to the Contract (Additional Conditions: Purchase)	Yes
Part IV of 4001 applies to the Contract (Additional Conditions: Lease)	No
Part V of 4001 applies to the Contract (Additional Conditions: Maintenance)	Yes
Delivery Location	As set out on the Call Up
Delivery Date	30 days from date Call Up is issued
Contractor must deliver Hardware Documentation	Yes
Contractor must update Hardware Documentation throughout Contract Period	Yes
Hardware Documentation must include maintenance documentation	Yes
Language of Hardware Documentation	<i>The Hardware Documentation is only required to be delivered in English and French.</i>
-Special Site Delivery or Installation Requirements	<i>No - 4001, Section 4 does not apply to the Contract</i>
Contractor must Install Hardware at time of Delivery	No
Contractor must Integrate and Configure Hardware at time of Installation	No
Hardware is part of a System	Yes
Hardware Warranty Period	<i>Despite 4001, the Hardware Warranty Period under Part V is 24 months with user extendable options up to three (3) additional 12-month periods.</i>
Class of Maintenance Service	<i>- Return-to-Depot Maintenance Service</i>

Toll-free Telephone Number for Maintenance Service	[to be completed with information from the Offeror at the time of award]
Website for Maintenance Service	[to be completed with information from the Offeror at the time of award]

7.8 Licensed Software

With respect to the provisions of Supplemental General Conditions [4003](#) (Licensed Software):

Licensed Software	The Licensed Software, which is defined in 4003, includes all the products offered by the Contractor in its Offer, and any other software code required for those products to function in accordance with the Software Documentation and the Specifications, including without limitation all of the following products: _____ [this information will be completed at contract award using information in the Contractor's bid]
Type of License being Granted	The hardware device is to come with software that has a device license. The on-premise server software is an entity license renewed yearly.
Entity Licensed	The Entity Licensed is the Client.
Source Code Escrow Required	No.
Software Warranty Period	24 months.

7.9 Software Support

With respect to the provisions of Supplemental General Conditions [4004](#) (Maintenance and Support Services for Licensed Software):

Software Support Period	Contract Period
Option to Extend Software Support Period	The Contractor grants to Canada the irrevocable option to extend the Software Support Period by four (4) additional twelve(12) month periods, exercisable at any time during the Contract Period. The Contractor agrees that, during the entire

	Software Support Period, the prices will be those set out in Annex B. The option(s) may only be exercised by the Contracting Authority by notice in writing and will be evidenced, for administrative purposes only, by an amendment to the Contract.
Contractor must provide On-site Support Services	No
Contractor must provide Swift Action Tactical (SWAT) services	No
Contractor must install Software Error corrections and Maintenance Releases and upgrades	No
Contact Information for Accessing the Contractor's Support Services	In accordance with Section 5 of 4004, the Contractor will make its Support Services available through the following: Toll-free Telephone Access: _____ Toll-free Fax Access: <u>Not required</u> Email Access: _____ The Contractor must respond to all telephone, fax or email communications (with a live service agent) within 24 hours of the initial time of the Client or User's initial communication. <i>[revise as necessary]</i> <i>[Note to Offerors: This information will be completed at the time of standing offer award with information supplied by the Contractor. Offerors are requested to provide this information in their bids.]</i>
Language of Support Services	The Support Services must be provided in English

7.10 SACC Manual Clauses

- a. SACC Manual clause B7500C (2006-06-16) Excess Goods
- b. SACC Manual clause B1501C (2018-06-21) Electrical Goods

7.11 Procurement Ombud

7.11.1 Dispute Resolution Services

The Parties agree to make every reasonable effort, in good faith, to settle amicably all disputes or claims relating to the Contract, through negotiations between the Parties' representatives authorized to settle. If the Parties do not reach a settlement within 25

working days after the dispute was initially raised to the other party in writing, either Party may contact the Office of the Procurement Ombud (OPO) to request dispute resolution/mediation services. OPO may be contacted by e-mail opo.boa@opo-bo.gc.ca, by telephone at 1-866-734-5169, or by web at www.opo-bo.gc.ca.

7.11.2 Contract Administration

The Office of the Procurement Ombud (OPO) was established by the Government of Canada to provide an impartial, independent venue for Canadian offerors to raise complaints regarding the administration of certain federal contracts, regardless of dollar value. If you have concerns regarding the administration of a federal contract, you may contact OPO by e-mail at opo.boa@opo-bo.gc.ca, by telephone at 1-866-734-5169, or by web at www.opo-bo.gc.ca.

ANNEX A - STATEMENT OF STATEMENT OF REQUIREMENT

1. TITLE

Low Bandwidth Mesh Solution with Satellite Connectivity

2. BACKGROUND

The Royal Canadian Mounted Police (RCMP) has a critical need for communication solutions that function effectively in areas with low cellular coverage, particularly in harsh and mountainous conditions. The solution must go beyond traditional voice communication, providing capabilities such as location tracking, messaging, and other essential data services to ensure comprehensive situational awareness and operational effectiveness.

3. ACRONYMS

AC	Alternating Current – a type of electrical current used in power supplies.
API	Application Programming Interface – a set of rules that allows software applications to communicate with each other.
ATAK	Android Team Awareness Kit – a geospatial and situational awareness application used by tactical teams. Also referred to as Civ-TAK.
Bluetooth	A wireless technology standard for exchanging data over short distances.
CSA	Canadian Standards Association – certifies products for safety and performance in Canada.
CETL	Canada European Testing Laboratories – a certification body for electrical products.
Encryption Key	A string of bits used by encryption algorithms to convert plaintext into ciphertext and vice versa.
Equipment	One combined piece of mesh and satellite capable radio device
FIPS 140-2	Federal Information Processing Standard – a U.S. government standard for cryptographic modules.
GPS	Global Positioning System – a satellite-based navigation system.
ISED	Innovation, Science and Economic Development Canada – regulates radio spectrum in Canada.
Iridium	A satellite communications company providing global voice and data coverage.
LoRa	Long Range – a wireless communication technology for long-range, low-power data transmission.
MIL-STD-810H	A U.S. military standard for environmental engineering considerations and laboratory tests.
Node	A single piece of Equipment that participates in the mesh network.
Offeror	The supplier providing Equipment, service, and software in response to the RFSO.
PLI	Position Location Information – data indicating the geographic location of a device.

QR Code	Quick Response Code – a type of matrix barcode used for storing information.
RCMP	Royal Canadian Mounted Police
RFSO	Request for Standing Offer – a procurement method used by the Canadian government.
RSS-247	A Canadian regulatory standard for radio equipment operating in unlicensed bands.
SMA Connector	SubMiniature version A – a type of coaxial RF connector.
TA	Technical Authority
TAK	Tactical Awareness Kit – a broader term encompassing ATAK and other variants.
USB-C	A universal connector standard for data and power transfer.
W	Watt

4. REQUIREMENTS

4.1 General Requirements

- 4.1.1 The Royal Canadian Mounted Police (RCMP) has a requirement for low bandwidth, mesh capable devices that operate in unlicensed frequency spectrum that also have integrated satellite (Iridium based) services. The RCMP requirement is for SomeWear Labs Node devices and associated services or equivalent as defined in the Technical Specifications.
- 4.1.2 The Equipment must be compatible with Android Team Awareness Kit (Civ-TAK, commonly referred to as ATAK hereafter) 5.0 and higher and Android operating system version 12 and higher.
- 4.1.3 The Equipment must be compatible with Android devices that support Bluetooth and USB-C connections including but not limited to the following cellular handsets currently in use by the RCMP:
 - Samsung model S21
 - Samsung model S22
 - Samsung model S23
 - Samsung model S24
 - Samsung model S25
 - Samsung model Galaxy Fold 6
 - Samsung model XCover 6 Pro
 - Samsung model XCover 7 Pro
 - Motorola Lex L11

4.2 Equipment Description

The Equipment must consist of the following major hardware components and associated software, firmware and accessories:

1. All-in-one package with no external antennas or battery required for operation.
2. Must be commercially available
3. Single Form Factor device including encompassing satellite, GPS and mesh communications.
4. Has an available ATAK plugin that is commercially available and approved on TAK.GOV and Google Play store.
5. Capable of hosting an on-premise version of the required server management software and application suite

4.3 General Specifications and Capabilities

- A.** Cellular handsets operate in several standard cellular frequency bands and the Equipment must function and be fully compatible with handsets via Bluetooth operating in any of the standard cellular bands in Canada.
- B.** All components, including but not limited to, switches, buttons, wires, connections, connectors, strain reliefs, housings, clothing clips, microphones, earpieces, supplied under this technical specification must be sufficiently rugged and durable for reliable daily use in a law enforcement environment.
- C.** Wires, switches, buttons and other components must not become brittle, and must not otherwise become degraded by several years of normal daily use, which includes close skin contact, exposure to wind, dust, rain, snow, ice, cold temperatures, hot temperatures, body perspiration or any other common elements that could be expected to be exposed to in operating in outdoor environments while being worn and used close to the body.
- D.** The operation of the Equipment and its associated components must not be affected by electromagnetic interference. The user must not receive noticeable interference from car ignitions, electric motors, high voltage power lines, fluorescent lights, electronic equipment or other sources of electromagnetic interference that are common in tactical operational police environments.
- E.** The Contractor must provide datasheets and specifications of power output and radiation patterns of all associated antennas.
- F.** All Equipment functions must be immune from noticeable negative effects caused by RF interference from the cellular handset, regardless of the proximity of the Equipment to the handset.
- G.** Circuitry in the Equipment including any radio frequency transmitters, must not cause any interference to, or otherwise degrade the operation of the cellular handset or other radio devices in close proximity within 1 meter.
- H.** Pressing any of the buttons on the Equipment, must provide tactile feedback to the operator when pressed, but must be sufficiently quiet so there is no noticeable audible “click” when operated in a quiet environment. Tactile feedback should be provided at minimum for the following portions of operation:
 - 1. Buttons are depressed,
 - 2. Pairing mode is entered,
 - 3. Emergency modes are entered,
 - 4. Powered on, and
 - 5. Powered off, etc.
- I.** The Equipment must operate in modified full duplex mode and be capable of acting as a node in a typical mesh environment such that it allows for pass through of data to another user of the mesh network while still allowing the same node to transmit or receive data of its own. Queuing of messages is acceptable so long as it does not introduce any noticeable delay in transmission of messages, data, or PLI information.
- J.** The Equipment must not generate any tones or beeps during normal operation. Any visible lights on the Equipment must allow for the user to configure them to be disabled through ATAK plugin.

- K.** The Equipment must have a user-configurable Emergency button that can utilize any of the available connectivity options for transmission of an Emergency signal to other users on the network and back to the central server.
- L.** The Equipment must be small in size and light weight so that it can be easily and discreetly affixed to members during operations. The device must not exceed 200grams, nor overall dimensions of 140mm x 70mm x 25mm (L x W x H). The device must come in the color 'black'.
- M.** The Equipment must provide means of attaching to external Equipment via a series of hooks and/or attachment points. If attachment points are used, they must be closed loop so that the Equipment is not able to slide off. For example, a belt-clip would not suffice.
- N.** The Equipment must be water and dust resistant to IP68 and meet MIL-STD-810H for shock and vibration.
- O.** The Equipment must be able to transmit at no more than 1W power and have user-selectable transmission strengths that can be set in both the provided software application and ATAK plugin.
- P.** The Equipment must operate over an ambient temperature range of -20° to +60° C.
- Q.** The Equipment must be able be stored in ambient temperature range of -40° to +60° C.
- R.** The Equipment must use a re-chargeable battery which provides at least 6 hours of normal operation while utilizing satellite and meshing capabilities of the device at 30 second tracking intervals.
- S.** When fully discharged, the time to recharge the battery to a full state of charge must be 4 hours or less.
- T.** The Equipment must include a rechargeable lithium-ion battery with a capacity of at least 1900mAh.
- U.** Alternating Current (AC) powered Equipment must be certified by the Canadian Standards Association (CSA), Underwriters Laboratories Canada (ULC) or Canada European Testing Laboratories (CETL)
- V.** The Equipment must have a valid Innovation, Science and Economic Development Canada Radio Compliance certificate.
- W.** Mesh radio must be able verify firmware integrity or detect unauthorized changes or counterfeit firmware upon boot-up (Power-On Self Test) and prevent start-up or operation of radio.
- X.** Equipment must support text-based messages, 2525 markers and API passthrough (e.g. sensor data) through the ATAK plugin.

4.4 Connectivity

- A.** The Equipment must have the following antennae built-in to the device such that no external antennae are required:

- a. GPS antenna
 - b. LoRa antenna
 - c. Satellite antenna
- B.** The Equipment must allow for the addition of external antennae for the following services using a SMA connector (SubMiniature version A):
- a. GPS antenna
 - b. LoRa antenna
 - c. Satellite antenna
- C.** The charging port on the Equipment must be type USB-C connection.
- D.** The Equipment must be capable of charging while being operational.
- E.** The Equipment must be able to connect to companion Android devices via Bluetooth (minimum version 5.0 or greater) or tethered USB-C connection.
- F.** The Equipment must connect to the cellular handset using standard Bluetooth technology and protocols using Bluetooth version 5.0 or higher.
- G.** A software application usable via Android cellular devices must be supplied which provides RCMP technicians the ability to update the Equipment firmware.
- H.** Wireless connections between the Equipment and companion Android Device must be fully reliable when within two meters of each other.
- I.** When the Equipment is paired with a cellular device there must be a visible indication of successful pairing on the Equipment as well as the cellular device.
- J.** There must be a simple quick method to allow field pairing of Equipment and the compatible cellular device.
- K.** The pairing process must not allow pairing of multiple pieces of Equipment with a single cellular device simultaneously.
- L.** The Equipment must be capable of operating as a standalone device without any cellular device tethered to it. The Equipment must allow for an assigned name/resource to be assigned to it via the management software such that it appears with the correct callsign in TAK and the Contractor's mapping software and applications.
- M.** Each node must be individually identifiable when pairing via Bluetooth in a busy Bluetooth environment (E.G Device – XXXX, where XXXX could be a unique identifier of that device).
- N.** Equipment must be capable of communicating to Iridium satellite services for purposes of tracking, messaging, management, and communication back to server, and also use a RCMP supplied Iridium contract for Short Burst Data.
- O.** Equipment must operate on self-healing mesh network topology

- P.** Equipment direct connection distance between two nodes over a flat, unobstructed terrain, in line of sight shall be at minimum 2km. The Equipment must be user configurable to allow for a minimum of +16dBm to +30dBm power output in each band.
- Q.** Equipment must support a minimum of 4 hops between any two nodes (total of 6 nodes including beginning and end).
- R.** The Equipment must support mesh protocols operating in the 902-928 MHz and 863-870 MHz bands up to 1W in transmission strength as regulated by ISED and follow RSS-247 specifications.
- S.** The Equipment must support Iridium satellite connectivity in the 1610-1626.5 MHz band leveraging Short Burst Data messaging protocol, allowing for up to 340 byte messages.
- T.** The Equipment must utilize smart routing of data to use the most appropriate method of mesh, cellular, Wi-Fi, or satellite for communications to other Equipment and servers such that when one method of connectivity fails, the Equipment automatically falls back to the next prioritized method of communication.

4.5 Encryption

- A.** Equipment must be able to generate random encryption keys, upon specific request, both locally, without a connection to the servers, and through a request to the management console
- B.** Encryption and key storage must conform to FIPS 140-2 Level 1 security requirements.
- C.** Equipment must contain methods suitable for sharing the encryption keys when no backhaul connection is available to the management server (such as through a QR code).
- D.** ATAK interface must show secure representation of encryption key currently in use.
- E.** Encryption keys must use AES-256 bit encryption and all data in transit and at rest must be encrypted using these keys.
- F.** Equipment must maintain encryption key indefinitely through periods of power loss.
- G.** Equipment must be tamper resistant and zeroize cryptographic keys upon evidence of tampering.
- H.** Encryption keys must be able to be stored and shared locally via QR code scanning, passphrase entry, or equivalent manner to allow for operators to create an ad-hoc encrypted channel to communicate within.
- I.** Equipment must allow for initiation of remote rotation of keys for all devices part of the associated channel.
- J.** Encryption keys must be able to be updated/rotated from ATAK interface and within the administration console to refresh the encryption key for each channel.
- K.** Encryption keys must allow for user-selectable automatic rotation of keys for each channel.

4.6 On-Premise Capabilities

- A. The Contractor must allow for the installation of an on-premise instance of the relaying software/server that pushes and pulls available data to and from Iridium network and also integrates with any TAK instance or other third-party service compatible with the cloud-based version of the software.
- B. The on-premises management suite must allow for full control of the devices including managing settings, assigning to individuals and provide a basic mapping functionality that will show the provided Equipment.
- C. The on-premises version of the software must have all available features of its cloud-based/online equivalent counterpart
- D. The on-premises version of the software must completely negate the need for any interaction or registration of the Equipment with the Contractor's cloud-based or self-hosted management software.
- E. The on-premises version of the software must have updates provided and be kept up to date such that continuous integration and use with ATAK and any relevant plugins results in no loss of use or down-time of devices in the field.
- F. On-Premises solution must be horizontally and vertically scalable to accommodate enterprise growth.

4.7 Integration with TAK

- A. There must be a simple and quick method to allow field pairing of the Equipment with Android Tactical Awareness Kit (ATAK)
- B. The Equipment must have a compatible, commercially available ATAK plugin that is kept up to date with the latest release of ATAK.
- C. The latest ATAK Plugin must be made available via Google Play store within 1 week of release of ATAK update, should an update be needed to enable continued operation.
- D. ATAK Plugins should be made available for on-premise installations within 1 week of release of ATAK update via LiquidFiles distribution pathway managed by the RCMP.
- E. The on-premise version of the management suite should be capable of federating to TAK servers and allowing for selectable groups to be shared.

4.8 Service and Support

- A. The Contractor must provide an option for Engineering Services to assist with developing solutions for issues as they arise throughout the lifespan of the contract and the product.
- B. The Contractor must provide an option for 'Battery Replacement Services' that includes shipping to and from any of the three delivery locations such that the Equipment receives a new internal battery and is continued to be covered by warranty.

- C. The Contractor must provide support that must include updates to on-premise services and software, firmware updates to Equipment, plugins, and applications, and support for any service requests and resolution of issues as they arise.
- D. As support requests are received, the Contractor will assist in categorizing the service request and provide support based off the following categories:

Category 1 (Critical)	Category 2 (High)	Category 3 (Medium)	Category 4 (Low)
Operational Exposure			
The application creates a critical operational exposure. The system is down or inoperable.	The application creates a serious operational exposure. The system is experiencing a significant loss in functionality.	The application creates a low exposure. Loss of functionality is minimal and does not impact operations	The application creates a minimal operational exposure. No functional loss and does not impact operations.
Work Outage			
The application failure causes the system to be inoperable or prevents the Customer from performing critical job functions	The application failure prevents the customer from performing significant job functions	The application failure prevents the Customer from performing a small portion of their job, but most tasks are able to be completed.	The application failure prevents the Customer from performing a minor portion of their job, but most tasks are able to be completed
Number of clients affected			
The application failure affects a large number of clients	The application failure affects a large number of clients	The application failure affects a small number of clients	The application failure affects one or two clients.

E. Levels of Service

The Contractor must provide the following levels of service based on the Category of Support identified.

1. Category 1 Support Requests:
 - a. Contractor support must be available 24 hours per day x 7 days a week
 - b. Initial Contractor response must be provided within 2 hours
 - c. Mandatory escalation with Contractor at 4 hours if not resolved.
2. Category 2 Support Requests:
 - a. Contractor support must be available during regular business hours (7am-5pm PST) 7 days a week.
 - b. Initial Contractor response must be provided within 2 hours
 - c. Mandatory escalation with Contractor at 8 hours if not resolved.

3. Category 3 Support Requests:
 - a. Contractor support must be available during regular business hours (7am-5pm PST)
 - b. Initial Contractor response must be provided within one business day
 - c. Escalation with Contractor at 2 business days if not resolved
4. Category 4 Support Requests:
 - a. Contractor support must be available during regular business hours (7am-5pm PST)
 - b. Initial Contractor response must be provided within one business day
 - c. Escalation with Contractor at 5 business days if not resolved

4.9 Documentation

- A.** The Contractor must provide a printed user manual with each equipment kit supplied, for all items in both English and French. As a minimum, the user manual(s) must provide information on:
1. How to use the Equipment.
 2. How to care for the Equipment.
 3. How to charge the Equipment.
 4. Instructions on how to use the ATAK plugin.
 5. Instructions on how to use the Android Applications.
 6. Instructions on how to manage suite software.
 7. Basic Troubleshooting

4.10 Warranty and Design Life

- A.** The Contractor must provide warranty for all components for a period of two years after delivery to the RCMP that includes a process for handling Return Merchandise Authorization for any faulty Equipment.
- B.** Equipment must not be:
- a. Manufacturer discontinued; or
 - b. Subject to any notice or advisory from the manufacturer that it will be discontinued within 3 years of standing offer being awarded.
- C.** Mesh radio excluding accessories and batteries must have a minimum Useful Lifespan of 5 years
- D.** Contractor must provide an extended warranty option to cover the minimum Useful Lifespan of 5 years.
- E.** Software, product usage, features, capacity licences and/or activation keys must be transferrable to replacement mesh radio of the same model or equivalent functionality provided with replacement mesh radio of the same model, without cost to the RCMP in the event of Equipment failure during the warranty or extended warranty period.

5. DELIVERY LOCATIONS

Radio Technology Program - Royal Canadian Mounted Police - RCMP

1. MS1505, 14200 Green Timbers Green Timbers Way, Surrey, BC, V4N1B4
2. MS3-3, 73 Leikin Drive, Ottawa, Ontario, K1A 0R2
3. 1091 Portage Ave, Winnipeg, Manitoba, RSG 0S6

6. TRAVEL

The Contractor is not required to travel under this Contract.

7. ENVIRONMENTALLY PREFERABLE PACKAGING - OPTIONAL

In accordance with the [Policy on Green Procurement](#) and the [Policy on Green Procurement](#) and the [Greening Government Strategy: A Government of Canada Directive](#), the Government of Canada is committed to promoting the procurement of environmentally preferable plastic products and the reduction of plastic packaging waste by considering environmentally preferable packaging specifications in procurement and contracts. All packaging material related to this requirement should be reusable, returnable or recyclable in accordance with the definitions set forth below. Excluded material* can also be found below. The Contractor is responsible for ensuring that their recyclable packaging is accepted at the local recycling facilities of the delivery location(s) and to verify with the contracting authority whether their reusable packaging can be reused by the end user. The Contractor must take back any packaging that cannot be recycled or reused by the end user at no additional cost to Canada.

- a. "Excluded Material" refers to packaging tape - environmentally preferable material alternatives for packaging tape are not widely available. As a result, packaging tape is excluded from the environmentally preferable packaging specifications until the market has progressed and studies become available to determine otherwise;
- b. "Packaging" means product to be used for the containment, protection, handling, delivery, storage, transport and presentation of goods. (Source: [ISO 21067-1:2016, Clause 2.1.1](#));
- c. "Recyclable" means capable of being diverted from the waste stream through available processes and programs and can be collected, sorted, processed and returned to use in the form of raw materials or products. (Source: [CAN/CSA-ISO 14021, Clause 7.7.1](#));
- d. "Returnable (to the Contractor)" means there is an existing and functional program in place for the packaging to be returned to the Contractor to reuse, refill, or recycle at no additional cost to the client;
- e. "Reusable (by Canada)" means designed to be used multiple times for the same purpose without losing its original functionality, physical capability or quality. A characteristic of a product or packaging that has been conceived and designed to accomplish within its life cycle a certain number of trips, rotations or uses for the same purpose for which it was conceived. (Source: [CAN/CSA-ISO 14021, Clause 7.12.1.1](#));

ANNEX B – BASIS OF PAYMENT (to be completed at award)

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm unit or hourly price, as specified below. Customs duties are included and Applicable Taxes are extra.

Goods must be consigned and delivered to the destination specified in the contract and Delivered Duty Paid (DDP) Surrey BC, Winnipeg Manitoba, or Ottawa Ontario, Incoterms 2020 for shipments from a commercial Contractor.

Table 1: Low Bandwidth Mesh Solution with Satellite Connectivity Equipment and Services

Item No.	Item Description	Year 1	Year 2	Year 3	Option Year 1	Option Year 2

ANNEX E– STANDING OFFER SOLICITATION DEFINITIONS

In this solicitation, unless the context otherwise requires, the following terms have the following meanings.

"Applicable Taxes" means the Goods and Services Tax (GST), the Harmonized Sales Tax (HST), and any provincial tax, by law, payable by Canada such as, the Quebec Sales Tax (QST) as of April 1, 2013;

"Applicable Trading Partner" means a country or customs territory other than Canada that is listed, pursuant to the schedule to the Canadian International Trade Tribunal Procurement Inquiry Regulations, as a party to any of the trade agreements applicable to this solicitation;

"Articles of Agreement" means the clauses and conditions incorporated in full text to form the body of the Contract; it does not include the annexes, the Contractor's offer or any other document;

"Call-up" means an order issued by an Identified User duly authorized to issue a call-up against a particular standing offer. Issuance of a call-up to the Offeror constitutes acceptance of its offer and results in the creation of a contract between His Majesty the King in right of Canada and the Offeror for the goods, services or both described in the Call-up;

"Canada", "Crown", "His Majesty" or "the Government" means His Majesty the King in right of Canada as represented by the Minister of Public Works and Government Services and any other person duly authorized to act on behalf of that minister or, if applicable, an appropriate minister to whom the Minister of Public Works and Government Services has delegated his or her powers, duties or functions and any other person duly authorized to act on behalf of that minister;

"Canadian Good" means a good that is wholly manufactured or originated in Canada. Canada may also consider a product that contains imported components to be a Canadian Good for the purpose of the Canadian Content Policy when it has undergone sufficient change in Canada in a manner that satisfies the definition specified under the Canada-United States-Mexico Agreement (CUSMA) Rules of Origin. For the purposes of this determination, the reference in the CUSMA Rules of Origin to "territory of one or more of the Parties" is replaced with "Canada". (Consult Section 3.130 and Annex 3.6 of the Supply Manual for further information.)

"Canadian Supplier" means a supplier that has a place of business in Canada where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours; or, a joint venture where each member of the joint venture has a place of business in Canada where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours;

"Canadian Service" means a service provided by an individual based in Canada. If a requirement consists of only one service provided by two or more individuals, Canada will consider the service to be a Canadian Service if a minimum of 80 percent of the total offer price for the service is provided by individuals based in Canada.

"Variety of Goods" means that if a requirement consists of more than one good, Canada will apply one of the following methods:

- a. Aggregate evaluation: No less than 80 percent of the total offer price must consist of Canadian Goods, or

b. Item-by-item evaluation: In some cases, Canada may conduct the offer evaluation on an item-by-item basis and award contracts to more than one Offeror. In such a case, Canada will ask the Offeror to identify separately each item that meets the definition of Canadian Goods.

"Variety of Services" means that if a requirement consists of more than one service, a minimum of 80 percent of the total offer price must be provided by individuals based in Canada.

"Mix of Goods and Services" means that if a requirement consists of a mix of goods and services, no less than 80 percent of the total offer price must consist of Canadian Goods and Canadian Services.

For more information on how to determine the Canadian Content for a mix of goods, a mix of services or a mix of goods and services, consult Annex 3.6, Example 2, of the Supply Manual.

"Other Canadian Goods and Services" means Canada may consider textiles to be Canadian Goods according to a modified rule of origin, copies of which are available from the Clothing and Textiles Division, Commercial and Consumer Products Directorate.

"Client" means the department or agency for which the Work is performed;

"Contract" means the Articles of Agreement, these general conditions, any supplemental general conditions, annexes and any other document specified or referred to as forming part of the Contract, all as amended by agreement of the Parties from time to time;

"Contracting Authority" means the person designated by that title in the Contract, or by notice to the Contractor, to act as Canada's representative to manage the Contract;

"Contractor" means the person, entity or entities named in the Contract to supply goods, services or both to Canada;

"Contract Price" means the amount stated in the Contract to be payable to the Contractor for the Work, exclusive of Applicable Taxes;

"Cost" means cost determined according to Contract Cost Principles 1031-2 as revised to the date of the bid solicitation or, if there was no bid solicitation, the date of the Contract;

"Date of payment" means the date of the negotiable instrument drawn by the Receiver General for Canada to pay any amount under the Contract;

"Excluded Material" refers to packaging tape - environmentally preferable material alternatives for packaging tape are not widely available. As a result, packaging tape is excluded from the environmentally preferable packaging specifications until the market has progressed and studies become available to determine otherwise;

"Former Public Servant" is any former member of a department as defined in the Financial Administration Act, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- (a) an individual;
- (b) an individual who has incorporated;
- (c) a partnership made of former public servants; or
- (d) a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity;

"General Conditions" means the general conditions that form part of the Contract;

"Government Property" means anything supplied to the Contractor by or on behalf of Canada for the purposes of performing the Contract and anything acquired by the Contractor in any manner in connection with the Work, the cost of which is paid by Canada under the Contract;

"Identified User" means a person or entity identified in the Standing Offer and authorized by the Standing Offer Authority to make call-ups against the Standing Offer;

"Joint Venture" means an association of two or more Parties who combine their money, property, knowledge, expertise or other resources in a single joint business enterprise, sometimes referred as a consortium, to offer together on a requirement;

"Lump Sum Payment" means the payment which has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner;

"Net-Zero Challenge or Equivalent" means the following accepted initiatives are deemed equivalents to the Net-Zero Challenge, 'United Nations Race to Zero' or 'Science-Based Targets Initiative (SBTI)' or 'Carbon Disclosure Project (CDP)' or 'International Organization for Standardization (ISO) – ISO 14064-1:2018'

"Offeror" means the person or entity (or, in the case of a Joint Venture, the persons or entities) submitting an offer. It does not include the parent, subsidiaries or other affiliates of the Offeror, or its subcontractors;

"Packaging" means product to be used for the containment, protection, handling, delivery, storage, transport and presentation of goods. (Source: ISO 21067-1:2016, Clause 2.1.1);

"Party" means Canada, the Contractor, or any other signatory to the Contract and "Parties" means all of them;

"Pension" means a pension or annual allowance paid under the Public Service Superannuation Act (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the Supplementary Retirement Benefits Act, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the Canadian Forces Superannuation Act, R.S., 1985, c. C-17, the Defence Services Pension Continuation Act, 1970, c. D-3, the Royal Canadian Mounted Police Pension Continuation Act, 1970, c. R-10, and the Royal Canadian Mounted Police Superannuation Act, R.S., 1985, c. R-11, the Members of Parliament Retiring Allowances Act, R.S. 1985, c. M-5, and that portion of pension payable to the Canada Pension Plan Act, R.S., 1985, c. C-8;

"Recyclable" means capable of being diverted from the waste stream through available processes and programs and can be collected, sorted, processed and returned to use in the form of raw materials or products. (Source: CAN/CSA-ISO 14021, Clause 7.7.1);

"Recyclable packaging" means packaging or a packaging component is recyclable if its successful post consumer collection, sorting, and recycling is proven to work in practice and at scale. This means that there is an existing (collection, sorting and recycling) system in place that actually recycles the packaging and that covers significant and relevant geographical areas as measured by population size. (Source: adapted from the New Plastics Economy Global Commitment);

"Returnable (to the Contractor)" means there is an existing and functional program in place for the packaging to be returned to the Contractor to reuse, refill, or recycle at no additional cost to the client;

"Reusable (by Canada)" means designed to be used multiple times for the same purpose without losing its original functionality, physical capability or quality. A characteristic of a product or packaging that has been conceived and designed to accomplish within its life cycle a certain number of trips, rotations or uses for the same purpose for which it was conceived. (Source: CAN/CSA-ISO 14021, Clause 7.12.1.1);

"Security Deposit" means (a) a bill of exchange that is payable to the Receiver General for Canada and certified by an approved financial institution or drawn by an approved financial institution on itself; or (b) a government guaranteed bond; or (c) an irrevocable standby letter of credit, or (d) such other security as may be considered appropriate by the Contracting Authority and approved by Treasury Board;

"Approved Financial Institution" means (a) any corporation or institution that is a member of the Canadian Payments Association (Payments Canada); (b) a corporation that accepts deposits that are insured by the Canada Deposit Insurance Corporation or the Régie de l'assurance-dépôts du Québec to the maximum permitted by law; (c) a credit union as defined in paragraph 137(6) of the Income Tax Act; (d) a corporation that accepts deposits from the public, if repayment of the deposits is guaranteed by a Canadian province or territory; or (e) the Canada Post Corporation;

"Government-guaranteed Bond" means a bond of the Government of Canada or a bond unconditionally guaranteed as to principal and interest by the Government of Canada that is: (a) payable to bearer; (b) accompanied by a duly executed instrument of transfer of the bond to the Receiver General for Canada in accordance with the Domestic Bonds of Canada Regulations; (c) registered in the name of the Receiver General for Canada;

"Irrevocable Standby Letter of Credit" (a) means any arrangement, however named or described, whereby a financial institution (the "Issuer"), acting at the request and on the instructions of a customer (the "Applicant"), or on its behalf, (i) will make a payment to or to the order of Canada, as the beneficiary; (ii) will accept and pay bills of exchange drawn by Canada; (iii) authorizes another financial institution to effect such payment, or accept and pay such bills of exchange; or (iv) authorizes another financial institution to negotiate, against written demand(s) for payment, provided that the conditions of the letter of credit are complied with; (b) must state the face amount which may be drawn against it; (c) must state its expiry date; (d) must provide for sight payment to the Receiver General for Canada by way of the financial institution's draft against presentation of a written demand for payment signed by the authorized departmental representative identified in the letter of credit by his or her office; (e) must provide that more than one written demand for payment may be presented subject to the sum of those demands not exceeding the face amount of the letter of credit; (f) must provide that it is subject to the International Chamber of Commerce (ICC) Uniform Customs and Practice (UCP) for Documentary Credits, 2007 Revision, ICC Publication No. 600. Pursuant to the ICC UCP, a credit is irrevocable even if there is no indication to that effect; and (g) must be issued (Issuer) or confirmed (Confirmer), in either official language, by a financial institution that is a member of the Canadian Payments Association (Payments Canada) and is on the letterhead of the Issuer or Confirmer. The format is left to the discretion of the Issuer or Confirmer;

"Specialized packaging" means packaging can be considered "specialized" if the intended use of the packaging requires technical performance specifications with no environmentally preferable alternatives. For example, when transporting hazardous materials, if there is a need for a specific density of materials, or if they must be temperature controlled;

"Specifications" means the description of the essential, functional or technical requirements of the Work in the Contract, including the procedures for determining whether the requirements have been met;

"Standing Offer" means the written offer from the Offeror, the clauses and conditions set out in full text or incorporated by reference from the Standard Acquisition Clauses and Conditions Manual, these general conditions, annexes and any other document specified or referred to as forming part of the Standing Offer;

"Standing Offer Authority" means the person designated as such in the Standing Offer, or by notice to the Offeror, to act as the representative of Canada in the management of the Standing Offer. The Standing Offer Authority will issue a document called "Standing Offer and Call-up Authority" to authorize Identified Users to make call-ups against the Standing Offer and to notify the Offeror that authority to make call-ups against the Standing Offer has been given to Identified Users;

"Supplier of an Applicable Trading Partner" means a supplier that has a place of business in an Applicable Trading Partner where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours; or, a joint venture where at least one member of the joint venture has a place of business in an Applicable Trading Partner where it conducts activities on a permanent basis that is clearly identified by name and accessible during normal business hours, and all other members of the joint venture either have a place of business in an Applicable Trading Partner where they conduct activities on a permanent basis that is clearly identified by name and accessible during normal business hours or are a Canadian Supplier;

"Supplier of a Non-Trading Partner" means any supplier that is not a Canadian Supplier or a Supplier of an Applicable Trading Partner; or, a joint venture where any member of the joint venture is not a Canadian Supplier or a Supplier of an Applicable Trading Partner;

"Total Estimated Cost", "Revised Estimated Cost", "Increase (Decrease)" means an amount used for internal administrative purposes only that comprises the Contract Price, or the revised Contract Price, or the amount that would increase or decrease the Contract Price and the Applicable Taxes as evaluated by the Contracting Authority, and does not constitute tax advice on the part of Canada;

"Work" means all the activities, services, goods, equipment, matters and things required to be done, delivered or performed by the Contractor under the Contract.

ANNEX F-SCSI VENDOR SUBMISSION FORM

Refer to attachment.
